PARIS REPORT ON BIG - 4 MINISTERS IS: NO PROGRESS

After One Full Week Of Negotiation Delegates Achieve Nothing

GROMYKO REBUFFS ALL REAL EFFORTS OF WEST

By Harvey Hudson

Paris, March 10. — (AP) — The Western Powers tried today to meet Russian objections to their program for a Big Four foreign ministers meeting, but got a rebuff from Andrei Gromyko.

After a full week of conferences among the foreign ministers' deputies from the United States, France, Britain, and Russia, it was generally agreed there had been no progress.

They'll start talking again Monday at 4 p. m. (10 a. m. EST.)

All of the talks center on words and the meaning of words used. The deputies can only set up a list of points for the ministers to discuss. Discussion of the matters themselves is supposed to be left to the ministers.

Russia has repeatedly insisted in the past week that the original agenda submitted by the western deputies does not cover the items which Russia considers paramount. So today the westerners put forward a new version of one of their items.

The new version specifically metioned some of the points in which Russia has expressed great interest. The westerners also want to talk about the same thing, but originally had listed them under a general heading. It was hoped that spelling out the individual points would mollify the Russians.

Gromyko, the Soviet deputy foreign minister who originally gained attention as a "no" man in the United Nations, took the view that the suggestion was unsatisfactory. He said the western powers were trying to stifle the Russian point of view and reserved the right to speak more fully on the subject later.

The original proposal of the three western powers called for "examination of the causes of present international tensions in Europe and the means to secure a real and lasting improvement in the relations between the U. S. S. R., U. S., United Kingdom, and France."

KAPLAN'S FATHER HOLDS NO MALICE

Says College Trick Which Cost Son's Life Could Have Happened Anywhere

Natchitoches, La., March 10.—(AP)—The bereaved father of Allen Kaplan left here today saying he held no malice toward college students whose "irate husband" prank resulted in his son's death.

"I realize this college prank, even though it resulted in the death of my son, could have happened anywhere," Norman Kaplan said upon leaving for his Chelsea, Mass., home.

After his statement, H. Lee Prather, president of Northwestern State College where 18-year-old Allen Kaplan was a freshman, said officials felt that no attempt should be made to punish those who planned the practical joke.

Young Kaplan drowned after college chums had taken him to a lonely lovers' lane atop a 100-foot bluff on March 1 to meet a fictitious blind date. Instead, he met a student posing as an outraged husband who fired a shotgun into the air.

Kaplan disappeared into a wooded area. His body was found yesterday submerged in a Red river whirlpool.

The youth's body was taken to Alexandria, La., today for air shipment to Chelsea. It was expected to arrive in Boston about 10 p. m. Sunday.

"The college authorities and the people of this community have been most kind and helpful and have gone to every extent possible in this matter," the father said.

"I hold no malice in my heart toward anyone involved."

Mrs. Young Reported 'Fired' By President

Congressman 'Heard' Truman Fired Stenographer With $9,450 Mink Coat; She Figured In R. F. C. Probe

Washington, March 10. — (AP) — Rep. Keating (R.-NY) said tonight he had "heard" that President Truman has fired Mrs. E. Merl Young, the White House stenographer with a $9,450 mink coat.

Keating made his statement in an ABC broadcast in which he was questioned by Bert Andrews, radio commentator and newspaperman.

Washington, March 10.—(AP)—Rep. Keating (R.-N.Y.) said tonight he had heard Mrs. E. Merl Young, the White House stenographer with a $9,450 mink coat, had been fired by President Truman; but White House officials said "there's no truth" to the report.

"I heard that he (President Truman) has fired her," Keating said.

Later in response to reporters' inquiries, Lt. Commander William Rigdon, assistant naval aide to the president, said he had checked again with White House officials on the report that Mrs. Young had been discharged.

Rigdon told reporters:

There's no truth to it. It is not under consideration and hasn't been done."

"I heard only a few minutes ago that he (Mr. Truman) has fired her," he said.

Afterward Keating, a critic of the administration, refused to tell a reporter what the source of his information was.

"I don't think I am at liberty to give you that," he said.

A senate subcommittee investigating an alleged influence ring said to have brought pressure to bear on the reconstruction finance corporation has developed testimony that Mrs. Young picked out her fur coat last September at a New York furrier.

The furrier said it was at first charged to Young but that later the charge was shifted to the account of Joseph H. Rosenbaum, a Washington lawyer. The subcommittee has charged Rosenbaum enjoyed "unusual success" at getting RFC loans for clients, largely through Young's help.

Young and Rosenbaum testified that Rosenbaum paid for the coat as a loan to Young.

Rep. Keating declared tonight that if Mr. Truman has fired Mrs. Young he ought to come out and tell the public so.

Neither Mrs. Young nor her hus-

Weeping Bandit Does It Anyway

Long Beach, Calif., March 10.—(AP)—Weeping remorsefully all the while, a gaunt, sickly bandit robbed a small grocery store of $32 today.

He claimed to have tuberculosis, diabetes, vericose veins, "smog-fever," and two hungry children, Mr. and Mrs. Chris W. Blake, proprietors of the store reported to the police.

"We're poor, too," Mrs. Blake pleaded after hearing the robber's woesome tale and noticing his "very ragged" overcoat. She said he simulated a gun in his pocket.

"Oh, I'll send the money back after I rob some bigger places," the robber promised, whereupon he jotted down his victims' address and gravely shook their hands before he left.

EXTENSIVE RED HUNT LAUNCHED

Senate Internal Security Group Starts Delving In All Quarters

Washington, March 10.—(AP)—The senate internal security committee has started a far-reaching new search for Communists-in-government, including the armed forces as well as the civilian agencies.

Disclosing that today, Senator O'Conor (D.-Md.), a member of the new committee, said the group also is "beginning work on the problem of penetration from abroad by Communist agents," he added:

"The evidence which we have thus far accumulated establishes beyond any doubt that the Communist network in the United States is inspired, organized, controlled and directed in large part by those foreign agents who are sent here under diplomatic immunity and who are working feverishly to destroy us."

As for the new inquiry aimed at finding out whether there are any Reds in federal jobs, O'Conor said one "task force of the committee has commenced work with reference to Communist penetration or influence in the various agencies of our government."

Another group, he added, is working "on the problem of Communist penetration of the armed forces."

Up to now the plans of the in

'BIG NAMES' WILL FACE KEFAUVER'S CRIME COMMITTEE

Probably The Most Spectacular Hearing Yet To Open Monday

EXPECT 50 POLITICAL, UNDERWORLD PROMINENTS

New York, March 10. — (AP) — The biggest and probably the most spectacular open hearing yet held by Sen. Estes Kefauver (D-Tenn) and his Senate Crime Probing Committee will begin Monday in New York.

A parade of approximately 50 witnesses including "big names" in politics and the underworld is scheduled to appear.

Top name among the politicians scheduled to testify is that of William O'Dwyer, former mayor and now ambassador to Mexico, who has promised a "factual picture" of the New York scene.

Kingpin among the underworld figures is Gambler Frank Costello, whom the committee has described as head of a national crime syndicate.

The crime probers want to look into possible links between politics and the underworld, gambling, narcotics, gangster infiltration into legislative business, waterfront smuggling and racketeering, and the Mafia, secret "black hand" organization.

In contrast with a closed preliminary hearing held by the committee earlier in New York, the doors will be wide open next week.

Newsmen will have front row seats. So will photographers and television cameramen.

Some 2,500,000 TV-owning New Yorkers will be able to watch the proceedings over any one of five stations. They are expected to be networked also to other parts of the nation.

The hearing room is on the 28th floor of the U. S. courthouse among the skyscrapers of lower Manhattan.

O'Dwyer, who has been ill in Mexico City, will come here voluntarily to testify on March 19 as the final witness of the New York sessions, the committee has announced.

O'Dwyer once described a Brooklyn grand jury investigation of police graft as a "witch hunt", but withdrew the statement after the investigation uncovered evidence

FOOD REGULATION IS DUE THIS WEEK

Adjustment Will Force Some Prices Up, Lower Others

Washington, March 10.—(AP)—The government is almost ready to put America's 500,000 retail food stores and about 2,000 food wholesalers under a new system of price controls that will bring higher prices on some foods and perhaps lower prices on others.

The office of price stabilization (OPS) said today it expects to issue three big food orders before the end of the coming week.

It was learned that the orders will set specific "mark-up" percentages for about 40 categories of food, including most canned and packaged foods, but not bread, milk, eggs, fresh meat, fresh fruits or vegetables. Food-sellers, by adding these percentages to the prices they pay, can determine the ceiling prices they can charge.

Some industry sources said they expect the orders to bring price rollbacks on coffee, breakfast cereals, shortening, cornmeal, certain flour mixes, and other items.

Ecuador Firmly Warns Commies

Quito, Ecuador, March 10.—(AP)—President Galo Plaza Lasso warned the Communist party today that Ecuador is firmly behind the western Democracies in their stand against communism.

His statement was a reply to Communist demands that he withdraw an offer to help the United States patrol the Panama Canal.

Defense Minister Diaz Granados announced a week ago that Ecuador is willing to help the U.S. in patrolling the Panama Canal zone. He said his country could offer a squadron of 10 planes and 20 officers and crewmen as part of a hemisphere defense plan.

Gabrielson Says 'Turn The Rascals Out' In Washington

Elgin, Ill., March 10.—(AP)—Republican National Chairman Guy Gabrielson said tonight there is only one way to "clean up this mess" in Washington—"turn the rascals out."

Discussing congressional investigations of the reconstruction finance corporation, crime and alleged sale of federal jobs in Mississippi, Gabrielson said his party is the one to do the cleaning up since it has no "skeletons to hide."

It will go before the voters next year, he added, with "clean hands—and a clean record."

The Republican chairman attacked the administration's record, too, on spending and Communism in an address prepared for the convention of the John Ericsson Republican league of Illinois. The meeting honored the Swedish immigrant who conceived the Monitor, first steel ship in the American navy.

"The faith of our people," Gabrielson asserted, "has been shaken by unmistakable evidence of incompetence, corruption, and even disloyalty in high places."

Discussing what he called the "moral climate in Washington," he said:

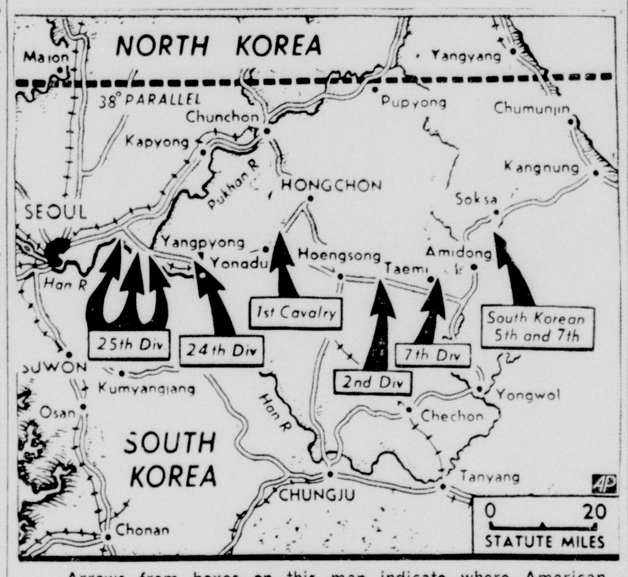

"A party in office too long gets careless, and frequently, corrupt. We see deep freezes given to high officials in return for favors. We discover that a lawyer representing clients at the reconstruction finance corporation has done some financing of his own — a nine thousand dollar mink coat for a White House stenographer.

"Two government officials, one of them handling personnel problems for the White House, enjoy free vacations at a Florida hotel whose owner, a punchboard 'king,' uses $200,000 of a $1,500,000 RFC loan to pay his own back income taxes."

Administration spending was termed "just a plain, legalized fraud upon the taxpayers."

DAWSON SKIPS TO MEET HIS CHIEF

Breaks Speaking Engagement In Favor Of Jaunt To Key West

Washington, March 10.—(AP)—Donald S. Dawson, White House aide who has figured in the senate RFC investigation, failed to show up for a speaking engagement today. He sent a substitute to address a panel of the American society for public administration.

Society officials said Dawson informed them that President Truman had asked him down to the "summer White House" at Key West, Fla., this week end.

Dawson, administrative assistant through whom political and other federal appointments funnel to Mr. Truman, has been accused by a senate banking subcommittee of exercising influence on the big RF C lending agency.

Several weeks ago the president called the subcommittee's original report asinine and told reporters he knew of no reason why Dawson should appear at its public hearings.

Simultaneously with the indication that Dawson had gone to see Mr. Truman Washington newspapers came out with headlines saying he "ignored" a written invitation from the senators to come up and tell his side. The committee disclosed it had sent Dawson the bid two weeks ago.

Dawson, a former RFC official whose wife is employed there, was seen at the White House yesterday, but no one there today could say whether he had left for Key West.

Dawson was on the printed program of the ASPA for an afternoon speech today on "how can the right men be found and developed to provide essential executives for an expanding federal government."

John J. Corson, New York management consultant who headed the panel discussion, announced smilingly to the meeting that Dawson could not appear because of the "unpleasant necessity of having to spend the week end at Key West."

He said Dawson had agreed to speak, but had called him early this week to say the president

Truman Declares Another 'Day'

Washington, March 10. —(AP)—President Truman today proclaimed Sunday, May 20, as "I am an American day," when old and new citizens should renew their faith in the principles upon which this nation was founded.

The proclamation made public by the White House said in this tense period of world history "our nation must strengthen its unity of purpose through increased devotion to the fundamental principles of individual liberty, equal opportunity, and justice for all."

It called on federal, state and local officials, and private organizations to arrange appropriate ceremonies May 20.

LOCAL COMPANIES GET DEFENSE JOBS

West Monroe Paper Industries Get $64,000 In Government Contracts

Two West Monroe paper industires — the Negley Bag and Paper Company, and the Brown Paper Industries — have been awarded defense contracts totaling about $64,000 for a three-month period, offices announced yesterday.

Charles Brown, general manager of the Brown Paper Industries, said last night that the contract signed by his company calls for delivery of 120 tons of standard bag products and 90 tons of craft wrapping materials.

This total tonnage he said, is valued at approximately $40,000 and will be delivered within 90 days, or during the months of March, April and May.

Brown said the contract was signed with the quartermaster corps, and brings the total shipment of defense goods to about three per cent of the company's total output.

The Negley Bag and Paper Company's contract calls for shipment of 40 tons of products a month, or 120 tons for the three-month period.

H. V. Brady, general manager of the company, said the 40-ton

Vet Swears Job Offered For $4,000

Memphis, Tenn., March 10.—(AP)—The Commercial Appeal said tonight that a Benton county, Miss., combat veteran has signed a sworn statement that he was asked for $4,000 for a rural mail carrier's job.

The statement was made by Carl Ferrill, 34, of near Winborn, for the files of Sen. Eastland (D.-Miss.) in the forthcoming investigation of reported widespread selling of federal jobs in the state, the paper said.

Ferrell was quoted as saying he went to Jackson to apply for the job and was ushered into the office of the Mississippi Democratic committee.

Ferrell said committee member Curtis Rodgers of Sylverna told him that he "understood that I was willing to pay $4,000 for the job."

"I told him that was ridiculous and left," Ferrell said. "Clarence Hood was present at the time and said, 'that's a lot of money, isn't it?'" Hood was acting chairman of the committee. He was ousted recently.

Another Benton county veteran, Sidney Rivers Ayres, 28, also swore, the paper said, that he "contributed" $1,000 for th same job, but that the money was later returned. He said he was told that "someone else had been recommended for the job."

Sen. Eastland and Sen. Stennis (D.-Miss.) have filed charges with the senate investigations subcommittee in the "job - selling" case. The subcommittee is expected to order investigators into the state this week.

'KILLING PLENTY'

U. N. Forces Still Concentrated On Destruction Of Enemy Armies

THREE-DAY DEATH TOLL FOR REDS SET AT 25,000

By Robert Eunson

Tokyo, Sunday, March 11. — (AP) — Tank-led U. S. 25th Division infantrymen deepened their bridgehead north of the Han river Saturday as the United Nations offensive plodded ahead on the western and central Korean fronts.

On the eastern end, the Allies were battling determined Korean Red efforts to take Amidong, three miles north of Pangnim.

The Allies' primary purpose still was the destruction of enemy forces rather than conquest of territory. For Wednesday, Thursday, and Friday, the first three days of the current drive, the U. S. eighth army estimated enemy casualties at 25,000. Saturday's high toll still was to be tabulated.

The 25th division troops were more than five and one-half miles north of the Han. Their 10-mile wide front was within 15 miles east and slightly north of Red-held Seoul. The next objective appeared to be the road that leads northeast from Seoul to Chunchon. The road was about five miles north of the 25th's last reported position.

To the east of the 25th, Greek, British, and American troops were punching closer to Hongchon, a key Chinese Communist defense point.

Greeks attached to the first U. S. cavalry division registered yesterday's biggest U. N. gains. They rammed four miles ahead in the rocky, roadless country west of Hoengsong. Greek field officers said little opposition was encountered and many empty foxholes were found.

FIVE INJURED IN TRAFFIC MISHAP

West Monroe Woman Reported Suffering Fractures, Shock

A panel truck turned over yesterday about ten miles north of here on the Sterlington road and injured five persons, one of them apparently seriously.

In the Wright-Bendel Clinic is Mrs. K. D. Hayes, of 1703 Trenton street, West Monroe.

Mrs. Hayes' daughter, Sally, 16, said her mother suffered a fractured leg, shock and possibly other injuries. Mrs. Hayes' physician could not be reached last night for comment on the injured woman's condition.

Sally, who was also in the truck when it turned over, was not hurt seriously. She said she suffered minor cuts and bruises.

Sally said three other girls were hurt in the accident. She named them as Violet Zeneble, 17, Jo Rhodes, 17, and Margaret Hunter, 17. All are students at Ouachita parish high school. Violet Zeneble is at the Riverside Sanitarium. Sally said Violet, was not hurt seriously.

According to Sally, her mother, driving the panel truck, passed a car and, while attempting to pull back on the right side of the street, the truck's wheels slipped off the shoulder of the highway and turned over in a ditch.

Sally said the driver of the car traveling behind them said the truck turned over three times. She said her mother and Violet Zeneble were thrown from the truck.

State police said their reports had not been completed last night.

State Budget Expected To Overcome Rise In Prices

Baton Rouge, La., March 10.—(AP)—Has the rise in prices nicked a few splinters in the state's financial budget?

Commissioner J. H. Rester of the division of administration says "no."

State purchasing by some 90 agencies felt the bite of a price rise of approximately 25 per cent since the Korean War broke out, he said.

Rester, however, explained corner cutting and a curb in maintenance operations, some reduction in personnel, was expected to overcome the price burden.

Rester said the state has a budget of $11,500,000 for the fiscal year 1950-51 for purchasing supplies and equipment, except for the state department of highways.

It would have been topped by more than $2,500,000, he continued, if price jumps were allowed to take hold.

The fiscal year ends June 30. What of after that?

"It's problematical what next year will bring," Rester commented. "We don't know now."

He admitted, however, the curb in maintenance operations to save money can not go on indefinitely.

Rester explained that when monthly budget reports by state agencies showed signs of overspending—"We start cutting corners."

"I don't think any of the state's ward have been hurt by this," Rester said.

Meat purchases, he noted, have been cut 10,000 pounds a month at the east Louisiana State Hospital at Jackson.

Rester said, too, maintenance spending at the Jackson institution probably had been cut in half.

RECORD PRICE PAID FOR CALF

Grand Champion At L. S. U. Livestock Show Sells For $4,224

Baton Rouge, La., March 9.—(AP)—An all-time Louisiana record price of $4,224 was paid today for a grand champion calf owned by 12-year-old Edna Woods of Corner, La.

The sale that followed the auctioneer's chant climaxed Louisiana State University's weeklong, 16th annual livestock show here.

The Aberdeen - Angus calf, which won grand championship honors Wednesday for the West Feliciana parish girl, weighed 1,018 pounds and sold for $4.15 a pound.

Exposition officials said it was the highest price ever paid for a calf in the state.

The 1951 grand champion was sold to J. Clifford Ourso of Baton Rouge vice president of the American Bank and Trust Co. and official of a cleaning establishment.

The grand champion calf last year, entered by Buddy Gardner of Shreveport was purchased by John Wolf of Baton Rouge for $2.75 a pound or a total of $2,200.

Ourso donated the baby beef to two Baton Rouge orphanages and the Chamber of commerce announced plans to sell the calf for the orphanages.

The reserve champion baby beef, owned by Charles Woods of Newellton, was sold for $1,823, weight 776 pounds, to Preston LeBlanc of the LeBlanc Corp., representing State Sen. Dudley J. LeBlanc of Abbeville.

The show's champion fat lamb, owned by 12-year-old Dan Sinclair of West Feliciana parish, was sold to H. B. Fairchild, manager of Mayrdale farms of St. Francisville, for $278. The lamb weighed 103 pounds.

The reserve champion lamb, exhibited by young Sinclair's nine-year-old brother, Jim Sinclair, sold for $141 at a weight of 94 pounds. The buyer was Mrs. Lewis Mistrot of Baton Rouge.

Lewis Mistrot of Baton Rouge bought the champion fat pig, displayed by Mack Levis, 16, of Haynesville, for $438. The pig weighed 274 pounds.

This, however, was far less than the record $802 paid for the 217-pound champion fat pig last year. It was sold at that time by J. V. Thomas, 15, of Haynesville, to Mouret Packing Co., of Opelousas.

The Mouret firm purchased the reserve champion fat pig today for $231. The pig, owned by John McDaniel, 14, of Haynesville, weighed 257 pounds.

Japan On Our Side

John Foster Dulles has just given his country and the world a superb demonstration of capable diplomacy at work.

With very little fanfare, he went out to the Far East to talk about a Japanese peace treaty, not only affecting Japan and the U. S. but Australia, New Zealand and the Philippines.

When he came back, he brought the draft of a peace document acceptable in its basic terms to the United States, Japan and our principal Pacific Allies. In other words, he has achieved the biggest single forward step toward a treaty since World War II ended.

This job was accomplished by Dulles and whatever staff he may have used. There were no widely heralded peace conferences in gilded government halls. There was no protracted wrangling over terms.

If the draft now on the table can be put into final form without losing any of the excellent harmony which exists among the prospective signatory nations, then before too many mouths have passed we should be formally at peace with Japan.

It is notable that this country and the others involved propose to move toward a final settlement in the same way they have proceeded thus far: Using normal diplomatic channels. Once again, therefore, the too often fruitless big conference will be avoided.

Russia, of course, has no part in these negotiations. The Kremlin has blocked every attempt to attain a Japanese settlement. If it were now invited to participate, it would simply sabotage the discussions by raising impossible demands.

East-West relations in Asia have deteriorated too much for the Soviet Union even to be considered. The only issue in the Orient is how to resist marauding communism, not how to negotiate with it.

That fact is reflected in the terms we and the Japanese are agreed to in the treaty draft brought back by Dulles. Of their own will, the Japs wish to accord us bases for our armed forces in the Japanese islands. This means that Japan is definitely aligned on the side of the West, indeed, considers itself virtually within the American orbit of defense.

It is heartening to find this positive, hopeful element in an area so confused and generally discouraging as the Far East. Japan's industrial might is a key factor there; wisely employed it can do much to lift up the whole of Southeast Asia. But in Communist hands it would be a strong lever pushing the region toward Red oblivion.

A formal treaty with Japan crystallizing this hopeful relationship is earnestly to be desired. For his crucial part in bringing such a treaty nearer reality, Dulles deserves the warm thanks of every American and every free man throughout the globe.

Alcoholics Anonymous

Alcoholics Anonymous, in Monroe as well as the rest of the nation is observing a birthday.

Fifteen years ago this organization of fellowship was formed with its purpose the rendering of assistance to victims of alcholism. Without paid officers, membership fees or dues, Alcholics Anonymous has grown steadily, powered by the sincere work of alcoholics who have gained sobriety.

A Monroe unit of this fellowship group was formed five years ago. For some time now it has had a club room and holds regular meetings twice weekly. Here, too, there is a steadily growing membership and a widening of influence.

Alcholics Anonymous is extraordinary in many ways. It functions quietly, without fanfare. Psychologists and psychiatrists have approved its methods in aiding alcoholics. The organization's procedure is in harmony with the medical profession. It does not claim to have a 'cure' for alcoholism, but in a surprising number of cases its methods are successful.

This is a movement which means much to those who need and want its helping hand.

London —(AP)— The newest weapon in the cancer fight—a radioactive cancer bomb—will be installed in temporary quarters here at War Memorial children's Hospital about July 1. Described as the world's first, the "bomb"—a cobalt 60-beam therapy unit—comes from Canada's chalk river atomic energy plant.

Memos of a Girl Friday

Dear WW: Remember Edward Von Rothkirch? A Sapsiety col'm (and other pillars) fell hard for this phony. He masqueraded as the "most important single, anti-Communist underground operator in all Yurrop" for the past 15 years. Well, Wisconsin is now looking for him on a forgery rap. . . . Clare Alexander, a pal of Queen Mary, will soon merge with Sir John Mann. He's 68, she's 44. . . . Anatole Litvak, now in Vienna filming "Hour of Decision," has lost his head again. Her name is Hildegarde Knef, plays a bit in the picture. Her husband will fight it, but Anatole says he wants to marry her. . . . Our lead para in Tuesday's (about Maj. Gen. Gavin and the Time eds) amused them over at the Stork, "21" and Toots'. "The General" said in a few words what it took "The Big Wheel" novel many 100s of pages.

The basketball mess points up the folly of scrapping with an enterprising newspaperman. A few years ago sports editor Max Kase (of the Journal-American) organized the basketball league. But the Garden's Ned Irish allegedly took it away from him. The Garden tried to pay him several Gs to salve its conscience, but Max snubbed it, vowing vengeance. And how. Max was the one who dug up the evidence in the current mess and turned it over to the Dist. Atty.

Jackie Elinson just dropped in. Writing nonsense for Durante. Says he understands that Rodgers and Hammerstein are already working on their next show. It won't have any actors in it. Just gonna feature three acts of their money. . . . Boston papers excited about J. P. Kennedy "buying" a rich gazette there. Someone denied it. They always do. . . . Your friends in the PD say Chief Inspector Flath is cleaner than the whole police dept. put together. Not quitting at all. He appeared before the Grand Jury, singing a waiver of immunity yet! . . . The E. Cantors' check for $500 (for that Miami cop's widow) is in. J. Durante will match it.

N. Y. publishers watching circulation of stand sales of Coast papers now up to 7 cents. . . . In case you've wondered what became of that Dr. Nancy Campbell case in New Mexico (she snatched a neighbor's child for ransom) a change of venue has been requested by both sides. Her lawyer wants it because he feels there's too much prejudice against her. The victim's father wants a change of venue because he says there's too much sympathy for her. . . . Please send the Runyon Fund $85, which Copa City and Gulfstream patrons paid for Sugar's autograph. . . . Prof. Sam Winograd says he didn't reprimand that basketball player. Harold Bauer, world famed concert pianist, is critically ill at his home in Coral Gables. He is 77. Since retirement he's headed the advance music dept. at the Univ. of Miami. . . . Editors Roundtable

LABOR'S REVOLT

Editors deplore the United Labor Policy Committee's extreme tactic of withdrawal of labor representatives from defense mobilization agencies. However, a large minority of editors feels that Labor has a good case for demanding a greater voice, under the over-all authority of Defense Mobilizer Charles E. Wilson, in formulation of policy. But a plurality of editors fears that labor seeks a return to the impractical and discredited World War II "Knudsenhillman" divided authority setup. While a considerable minority argues that Labor's real purpose is to dominate the entire defense mobilization program.

Cleveland (Ohio) Plain Dealer (Ind.-Dem.): "If the leaders of organized labor aren't allowed to run the game, they won't play. . . . That is how the decision of the United Labor Policy Committee to instruct labor representatives to resign from all defense mobilization agencies will be regarded by most people. . . . What the labor leaders are really incensed about is that the Truman administration has turned the production job over to someone who is primarily interested in production, not in promoting the interests of organized labor. ."

St. Louis (Mo.) Post - Dispatch (Ind. - Dem.): "Labor leadership has every right to protest to the people if it thinks that it is being pushed a round. . . . But it does not have cause to boycott the defense effort. The best case can be ruined by a bad tactic. . . . There can be no question that labor had cause for strong complaint. . . . Labor has not been treated as a partner. It has not been given an equal voice on manpower. Wages were frozen while price regulation is in such a muddle that the merchant who is so minded can do almost anything he wants to do."

San Francisco (Calif.) Chronicle (Ind.-Rep.): "The labor politicians of the ULPC who called a walkout of labor representatives from defense mobilization agencies will, we predict, soon feel the pressure of public opinion enjoining them to walk back. . . . Essentially, they want two top men running the defense effort—one to respond to their wishes on the use of manpower and the fixing of wage limits, the other to do the job of getting goods produced and of fixing prices. . . . These two functions are inseparable . . . and are best integrated in a structure which leaves final authority in one over-all head."

Chicago Sun-Times (Ind.): "Organized labor has plenty of reason to be sore about the present defense mobilization setup. . . . We can't see why labor shouldn't be admitted to full partnership in the mobilization high command, on a par with big business. And it seems to us that a fairer wage increase formula can be worked out. Labor has every right to be alarmed over the rising prices of ALL cost-of-living items, and food in particular. . . . But just grievances are one thing and a boycott of the entire mobilization establishment is another. The latter smacks too much of the strike technique."

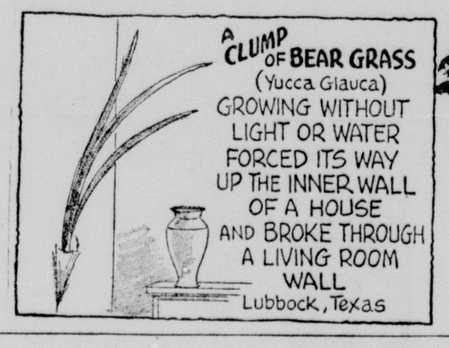

Cincinnati (Ohio) Times - Star (Rep.): "What ULPC apparently wants, though it has not stated this in so many words, is a control machinery in which representatives of labor and industry shall divide authority at the top. This would be a revival of the 'Knudsenhillman" setup of World War II. That arrangement failed. . . . President Truman sought to avoid a repetition of that mistake. He named Charles E. Wilson to direct the mobilization effort not because he represents industry—Wilson has, in fact, severed all connection with industry—but because he is a production genius with a rare gift for organization."

Des Moines (Iowa) Register (Ind.-Rep.): "Apparently the chief sore point with labor is the failure of the president and Mr. Wilson to place labor representatives in top executive positions in the mobilization agency. . . . The important face is, therefore, that these labor groups believe they have been by-passed in the planning of a united economic effort. This is a situation for which the administration cannot escape responsibility. The vital role of labor union management just cannot be overridden in an industrial society like ours. Effective manpower is too important."

Washington (D. C.) Post (Ind.): "In charging that big business is dominating the defense program and that Defense Mobilizer Charles E. Wilson has 'absolutely no desire' to give labor a real voice in policy, the united labor policy Committee goes too far. Labor is entitled to be heard, and a reexamination of the mobilization setup is absolutely necessary. It would be intolerable, however, if this reexamination were to lead to a revival of the discredited two-headed type organization of World War II."

New York Day By Day

New York—Joe Val's vacation, pardon the expression, is over, and his staff can't wait for his return from Florida baseball camps and a big fat chuckle at his expense. There never was a finer, more conscientious Manhattan sports editor, and probably none more beset by pranks of fortune. So only the ignorant will fail to understand Val's agony when colleagues start needling him Monday.

It's legendary now that whenever Joe takes a day off, his staff holds onto their hats. Some big story is sure to explode. The morning Val headed south a few years ago, Leo Durocher was suspended by Happy Chandler. On the first day of another Val holiday Babe Ruth died. Durocher announced his switch from Brooklyn to the Giants on another occasion. Last year Joe shoved off for an elaborately planned vacation to learn that his paper closed down due to a strike throughout his absence. This year was no exception. A few hours after Val tootled out of town, New York's basketball bribery scandal hit the front pages. So you can appreciate Joes agony, when colleagues jestingly welcome Val back Monday—now that the hottest sports story of the year has spent most of its shocking voltage.

War Paint—When Bill Boyd was recently asked why he didn't wear a cowboy outfit for effect in private comings and goings, he smiled one of those Hopalong Cassidy smiles and suggested: "Probably for the same reason Robert Taylor doesn't traipse around Hollywood this month in a Roman toga—merely because he acted in 'Quo Vadis. " . . . Saw an East Side pooch recently that wore a chesterfield overcoat with velvet collar and leash trimmed with ermine tails. . . . And one fancy midtown hatter is turning out hats to match for Easter, one for milady, the other for Fido.

Lumps of Sugar—R. J. Kleberg, multimillionaire owner of fabled King Ranch, claims that the nicest present he has received in years was a photo some thoughtful individual recently forwarded. Shows him and Gen. D. D. (Shape) Eisenhower pheasant shooting upstate N. Y. last fall. . . . Scott Radio Lab. just shipped four TV sets to Lauritz Melchoir, one portable and three for his homes here and on the coast. Seems as if he plans to do some sitting and looking for a change. The burly baritone is usually on the business side of video screens.

Afterglow—Liz Whitney Person and her Dr. husband flew Miamiward from Cuba to a cocktail party at North Shore Hotel where the A and Z of social scale massed for laughs. I glimpsed such extraordinary extremes as racing's first lady, Mrs. William Woodward, and Broadway's first suitcase tie salesman, Prof. Swifty Morgan. . . . Tennessee Williams tottled up from his new shack in Key West for a look around. Hadn't heard what comic Peter Donald is calling his current Broadway play—"The Mo-rose Tattoo."

Double-Takes — Louis Johnson, former secretary of defense, spent four days in Miami Beach's Roney Plaza, scarcely recognized by erstwhile grovelers since he's no longer war-contract boss. Now he's in Cuba on a legal case with which his revived law practice is concerned. . . . Hildegard Schine, wife of J. Myer of hotel millions, tells me that when her daughter Renee recently married Chicago's equally wealthy Lester Crown, they received a unique wedding gift. J. K. Angelo Patri:

OUR CHILDREN

HEALTHY SAMENESS

Dr. Johnstone of Vineland Training School, a great American teacher, used to say that the best program for children was one that presented a monotonous variety. He meant that the basic rhythm of the program allowed a steady sameness in the days, the same thing done at the same time, in the same place, every day, until the response was accurate and automatic.

Breakfast at the same time was the monotonous element and a change in the menu the variety. Holding to that principle every day provided the monotonous variety of living that young children thrived best under and enjoyed most.

We want to give the little child a chance to form habits that will in time relieve him of thinking about, making decisions about, giving precious time to such ordinary matters as bathing, eating, dressing, playing, working, living with other people comfortably. By following a program that sets a rhythmic routine in the child's body, we can do just that.

Knowing what "comes next" is a source of comfort and strength to a little child. He knows that after he is washed and dressed he will get his breakfast, next he will go to the toilet, next wash hands, get dressed for outdoor play, and so on for the day. The assurance this gives him is tonic to his spirit. It removes many a cause for friction and fatigue. It establishes a felling of duty to be done, duty accomplished and that too, builds strength, the inner strength that is so valuable to the character growth of the young ones.

This routine need not be dull. It can and should be varied within the framework of the program. Orange juice for breakfast, always? How about prune juice today? Oatmeal for the cereal? How about another good cereal? A bluebird on the cereal saucer? How about using the pink one with the rabbit on it? Such things do help.

If we can set the fundamental habits of health, eating, drinking, sleeping, bathing, recreation, usefulness in the early years we clear the timetable for the next set of habits, which may require greater skill ,more thought on both sides. By making these habits automatic we lay the foundation for the essential self-control of the later years. We make life with children much easier for their parents and we make life for the children much easier too.

Regular mealtimes and the right diet go far in forming the proper eating habits in children, and also make them healthier and better behaved. Dr. Patri tells how to form good eating habits in his booklet No. 303, "Feeding Children."

DOWN SOUTH

EXPERIENCE IS TEACHER

There is an old saying that, "Experience is a dear teacher, but fools learn by no other". That is another way of saying, of course, that intelligent people should learn by precept and example, that they should benefit from the experience of others.

Assuming that the people of the United States are intelligent people—and I am sure we would all like to assume that—we should be able to learn something from the examples set us by other nations in our own generation, even if we do disregard some of the lessons history.

Consider New Zealand, for instance. For fourteen years prior to 1949, New Zealand had a socialist government. They went all the way through the wringer; their well finally ran dry. In November of that year, they returned to a private enterprise government. Their prime minister under the new government has been Mr. Sidney Holland. I have recently received a special dispatch which has this to say of Mr. Holland and his work:

"Burning unnecessary controls and regulations, cutting government spending, and reducing national taxation has been the job of Mr. Sidney Holland for the past fourteen months.

"Mr. Holland's opponents foretold disaster. They were wrong. The threat of inflation has receded, taxes are down. Yet defense costs are double, social services, new schools and new houses are costing the nation more. This has been achieved because controls and government spending were cut.

"This is no theory. This is fact. New Zealand is now a land of free enterprise—and glad of it."

Notice the three things Mr. Holland has been doing: (1) burning unnecessary controls and regulations, (2) cutting government spending, and (3) reducing national taxation. What are we doing along these three lines Just the opposite!

Mr. Holland and his party know that controls and government spending and high taxes had brought their nation to the brink of disaster. They knew that the only way to avoid disaster was to reverse the trend along all three lines. Do we realize as much here in the United States?

Of, course, these were the favorite devices of the socialists, and, as quoted, they hollered to high heaven that their abandonment would ruin the country. Haven't we heard the advocates of controls and spending and taxation say the same thing right here in the United States?

Yet what happened in New Zealand? "The threat of inflation has receded, taxes are down." What a consummation to be devoutly desired right here in our own country! Next to war and pestilence, inflation has caused more human misery throughout history than any other one thing. Yet we are flirting with disastrous inflation right now in the United States in this year 1951, and the only steps we are taking to avoid it are not cures, they are palliatives.

But the advocates of controls and spending and increased taxation say we must have these things because of our defense needs. This is not a reason—it is only an excuse! What about New Zealand? "Defense costs are double", and other expenses have likewise increased, but "taxes are down". No, these measures are simply promulgated by those who believe in state control rather than free enterprise in the first place. They may not realize it themselves—some of them—but it's true.

George E. Sokolsky:

THESE DAYS

AMERICAN PEACE— CRUSADE

One of the most potent instruments of warfare in the modern world is mass propaganda. By this means it is possible for one nation to destroy the will to resist of its objective enemy. In this effort, the press, radio, and other means of expression become the innocent tools of the enemy, often presenting his side as news and information while actually it is neither.

Guileless persons become the instruments of the enemy without understanding what they are doing or what he intends them to.

It is an ingenious form of psychological warfare which the United States practiced most successfully on the Japanese people during World War II.

It is remarkable that the best description of this device appears in George Washington's farewell address:

" . . . Sympathy for the favorite nation . . . leads also to concessions to the favorite nation of privileges denied to others, which is apt doubly to injure the nation making the concessions by unnecessarily parting with what ought to have been retained, and by exciting jealousy, ill will, and a disposition to retaliate in the parties from whom equal privileges are withheld and it gives to ambitious, corrupted, or deluded citizens (who devote themselves to the favorite nation) facility to betray or sacrifice the interests of their own country without odium, sometimes even with popularity, gilding with the appearances of a virtuous sense of obligation, a commendable deference for public opinion, or a laudable zeal for public good the base or foolish compliances of ambition, corruption, or infatuation."

During the existence of the Hitler-Stalin alliance, Soviet Russia employed in this country such an organization as the American League for Peace and Democracy, which became the American peace mobilization. This organization existed to prevent the United States from going to war with Nazi-Germany. It will be recalled that at that time many Americans were in favor of peace. The league utilized this attitude to associate with a strictly Communist group many who were wholeheartedly anti-Communist.

(The ancestor of this organization, by whatever name, was the American league against war and Fascism. The successor was the American Peoples Mobilization and now is the American Peace Crusade. The American League Against War and Fascism is said to have developed 4,000,000 members.)

Many upright Americans, who are presently opposed to some of the policies of our government, could be sucked into this organization. Those who question the Marshall-Eisenhower program for participation in Europe's defense need to avoid complicating the "great debate" by affiliation with Communist propaganda. The "American peace crusade" must be regarded as such.

Their program has been summarized in "counterattack" as follows:

1. Withdraw American troops from Korea; end the war in the far east.

2. Seat Communist China in the U. N.

3. Germany must not be rearmed.

4. A "united front" for peace must be formed in the United States. All Americans, regardless of their philosophical, religious, social and political differences, must unite to save the nation from the catastrophe of war.

Many Americans are opposed to the Korean war for various reasons. The best statement of their position appears in Ernest T. Weir's pamphlet entitled "Statement on our Foreign Situation." The best statement on the entire question of opposition to or limitation of war participation is Herbert Hoover's first speech in the "great debate."

However, when with that attitude is coupled the demand that Soviet China be given an absolutely free hand in Asia and that the United States accept a humiliating defeat in Asia, there is a sufficient confusion of issues to cause concern as to the motives. The "American Peace Crusade" supports Stalin's position in Asia.

And when associated with the concept of withdrawal from Asia is a propaganda to reject rearming of Germany, and for that matter, Japan, it can be taken for granted that a Stalinist position is being adopted.

Any movement which includes Ben Gold, Abram Flaxer, Maurice Travis, Paul Robeson, Rockwell Kent, Albert E. Kahn, Clementina J. Paolone, W. E. B. DuBois, and Howard Fast is a dead giveaway as to its orientation.

Americans differ on many questions. It is in the nature of a free people to hammer out their judgments on the anvil of debate. But difference need not mean division The "great debate" has been notable by the gradual harmonizing of varieties of views.

The Communists are not interested in differences; they seek division. Therefore, they are enemies and should not be joined no matter how closely their views might come to those of decent Americans on a particular issue.

BIBLE THOUGHTS

And he saith unto them, Why are ye fearful, O ye of little faith? Then he arose, and rebuked the winds and the sea, and there was a great calm. — Matthew 8:26.

JES' RAMBLIN'

(Continued from First Page)

er, Opal Golson, Mrs. W. L. Allen,

Sebastian Flyte (Hillyer Speed Lamkin) in today's Hearst American series of Sunday stories on "Invitation to Personalities", deals with royalty this time. He tells of the past and present of the Duke and Duchess of Windsor. The story is entitled: "Are Duke and Duchess Nearing Disaster?"

Intimate history of the pair is related with what appears to be a close up knowledge of affairs. He tells of the many friends of the Duchess but in no way does he indicate that the royal romance is in any danger at least at the present time. We understand that "Sebastian Flyte" has been a house guest of the Duke and Duchess in their Riviera villa on the Mediteranean.

Another highly regarded and useful citizen passed in the death of James (Jim) Wooten, who for nearly 15 years served as postmaster in addition to having served in two administrations on the state highway commission. He was possessed of a brilliant, well-trained mind and a desire to prove useful in all that pertains to good sound governmental affairs. His friends were legion and he ever proved a faithful to trusts reposed in him

It fell to his lot to make removal from the old postoffice (now the parish health unit) to the present structure on Jackson street. The removal occurred on January 7. Jes' Ramblin' has reason to recall the date for the then acting postmaster, saw to it that he received the last letter that went through the cancelling machine at the old postoffice.

He affixed to the letter which was delivered by special delivery to Jes' Ramblin' the following note

"Monroe, La., Sunday Jan. 7, 1934.

This is the last letter to pass through the cancelling machine at the old postoffice building corner Grammont and St. John Sts. before moving the machine to the new postoffice at Grammont and Jackson streets—the last letter mailed from that historice old spot where we have enjoyed seeing your smiling face so often. Here's hoping you will come to see us often

It bore signature of Acting Postmaster James R. Wooten; ass't postmaster, Andrew Carter; sup't of mails, W. A. O'Kelly; chief clerk, George A. Hollingsworth; and special delivery messenger, Jake Shell.

Assisted by the Grey Ladies of the Red Cross and the nurses and staff of the St. Joseph's home, this institution will be thrown open Sunday, March 18, to the public f the entire community who will be urged to visit and become better acquainted with what this place means to all northeast Louisiana.

Visiting hours are to be from 2 to 4 p.m. and those who attend will be escorted through the entire institution, which now has 104 men and women who are regular residents.

Theres going to be a big time and something really unique let loose at the Northeast Louisiana State College gym Tuesday and Thursday March 27 and 28 when Jack Moxley brings donkey baseball to Monroe.

Jack Moxley has established an enviable reputation as fun producer wherever he goes with his trained donkeys which are said to be themselves quite expert in their knowledge of basketball, and also of just how to "throw games" at their ever varying will.

The Monroe Civitan Club is responsible for booking this number through courtesy and cooperation of the college and its president, Lewis Slater. Money that is netted will be used by the club for its social service work and for other club projects.

Members of the club are said to be practicing cowboy stunts and they declare they will be in excellent trim to meet their rivals. Just who will seek to wrest laurels from them is not fully determined but it appears most probable that the dynamic and ever ventureful Jaycees will be the ones to compete with Civitans.

Its going to be an exciting time and will doubtless duplicate the fun that has been passed around in cities and towns where Jack Moxley has turned his donkeys loose. In many cities such clubs as the Rotary have been competitors with the Kiwanis or Lions in sponsoring this most unique way of playing basketball. We understand that in Ruston recently the whole town was convulsed with laughter at a game of this nature.

To prevent marring of the floor of the gym at the college donkeys and riders will wear rubber shoes.

BERAN EXPELLED

(Continued from First Page)

was issued, or whether the archbishop already had been moved out of Prague.

While there has been no word directly from the 62-year-old prelate for 13 months, this announcement appeared to have quieted, at least temporarily, rumors that he might be tried like the primate of Hungary, Joszef Cardinal Mindszenty, who was sentenced to life imprisonment. At the same time it seemed to indicate that Archbishop Beran had not ceased his resistance to government moves against the hierarchy.

(The National Catholic Welfare Conference information bureau in Washington said last December its sources confirmed reports that the archbishop was taken from his palace residence and imprisoned.)

Archbishop Beran has not been seen outside his 150-room 16th century hilltop palace in Prague since June, 1949, when he went into seclusion and was reported under virtual house arrest. Frequently he sent out letters to his priests, but there has been none since February, 1950.

The government announcement accused the prelate of having shown an "uncooperative attitude."

It said that the Rev. Anttnin Stehlik, a relatively unknown parish priest, has been installed as vicar capitular. This means he has been placed in charge of the diocese, since the title is applied to a person who takes over a vacant seat pending the selection of a new archbishop.

Father Stehlik was the parish priest of St. Anthony's in Holesovice, a Prague suburb.

The appointment has the approval of the state office for church affairs, headed by the Communist deputy prime minister, Zdenek Fierlinger. It is this office which has taken over most Catholic church affairs against the opposition of the Czech hierarchy and the protests of the vatican. It is now required by law that all appointments to church posts be approved by this office of the government.

"The new vicar capitular," said the official broadcast, "has always been patriotic and Democratic. From the very beginning, his attitude toward the people's Democratic (Communist) regime has been clear and uncompromisingly positive."

band could be reached for comment here tonight. A maid at their home said they were out of town. Likewise, the White House said there was no one there who could give any information on the matter. The president is at Key West, Fla.

Turning to another phase of its RFC investigation today, the senate subcommittee put its spotlight on a Missouri federal tax collector.

It suggested — but did not demand—that the bureau of internal revenue look into relations of James Finnegan, collector of internal revenue in St. Louis, with RFC affairs.

The senate banking subcommittee, headed by Senator Fulbright (D-Ark.), pointed to testimony by Rex Jacobs, Detroit industrialist, on March 2 that Jacobs once angled unsuccessfully to lease from the RFC the big plant of Nicaro Nickel Co., in Cuba. Jacobs added that Finnegan was to become a partner in the venture if the lease went through.

The subcommittee has named Jacobs as a member of an influence ring with White House entree which, it contends has exerted pressures on the RFC.

'KILLING PLENTY'

(Continued from First Page)

The foot - cavalry, moving northeast toward Hongchon along the road from Yongdu, were about eight miles from that Chinese stronghold. Maj. Gen. Charles Palmer, division commander, said "We are picking up a considerable amount of their material and it looks as though we are killing plenty of them."

The British commonwealth 27th brigade, fighting in the same area, registered gains of about one mile.

The U. S. first marine division battling through the mountains on the road from Hoengsong to Hongchon, was about eight miles southeast of Hongchon. The marines advanced slowly against an enemy well entrenched amid mountain ridges 3,000 feet high. Artillery and air attacks were taking a heavy toll of the Communists.

On the extreme eastern front, south Korean reinforcements were rushed in to stem the Red onslaught against Amidong, three miles north of Pangnim.

At last reports the rreinforcements were making good progress against light resistance. Earlier one enemy thrust was crushed by an artillery barrage.

The U.S. seventh division, fighting in the mountains north of Amidong, maintained contact with the enemy Saturday through extensive patrolling.

The patrols reached the approaches to Mount Taemi, which the seventh relinquished to the Reds Friday.

Associated Press Correspondents Tom Stone reported from seventh division headquarters that an estimated 15,800 North Korean Reds have been spotted in the Amidong sector.

As a striking example of the attrition of Red forces, intelligence officers believed these 15,800 represented eight North Korean divisions. This would average less than 2,000 men to a division, compared with the normal 10,000 each.

The enemy was believed to have another 8,200 men in reserve in that sector, however.

American officers attached to South Korean units said they were confident the North Korean drive had been blunted. They predicted the dent in the South Korean lines would be straightened out in 24 hours.

All along the front the UN forces were mopping up Red pockets as they advanced. Progress was slow, but methodical. When the doughboys ran into resistance they called for artillery and air raid, then moved in with tanks and small arms.

Intelligence officers of the U.S. 25th division said the Reds appear to have fallen back from their first line of defense north of the Hans river.

"We have killed a batch of them and have driven many more back into the hills," an officer told the Associated Press Correspondent Jim Becker.

Between the 25th division and the first U.S. cavalry, the veteran American 24th division was rolling ahead Saturday after smashing three enemy counterattacks the night before.

Farther east the Princess Pat batallion of Canada punched out a gain of two and one half miles, capturing Mount Kalgi, a 2,000 foot-peak.

Five miles east of Hoengsong the U.S. second division took a hill from the Reds after a three-hour fire fight.

Associated Press Correspondent Nate Polowetsky said other elements of the division farther east reported moderate resistance.

Fifth air force pilots claimed another 400 enemy casualties Saturday, although bad weather grounded most planes in the morning.

Far Eastern naval forces announced in Tokyp early Sunday that the U.S. light cruiser Manchester had been shelling Songjin on the east coast for 72 hours steadily. Shore batteries which opened fire on the Manchester were silenced the first night.

monthly shipment includes 20 tons per month of paper bags, and 20 tons a month of wrapping paper.

He said the dollar value of the Negley shipments was $8,000 a month, or $24,000 for the three-month period. A plan is currently underway, Brady said, whereby a total of 300 tons of paper products will be shipped for defense purposes each month. He said this tonnage is expected to be reached by April or May.

Brady added that the contracts are awarded every three months, and that the contract with his company is expected to be renewed.

FOOD REGULATION

They expect retail price rises on a good many things including baby foods, flour and spices. They said frozen foods may go down in some stores and up in others.

But those predictions, while they were from well informed persons, could not be taken as final or official decisions.

The OPS kept the "mark-up" percentages closely guarded. Nor would the agency make any official guess as to the overall effect on the housewife's food bill.

The orders will also apply to the prices of butter, packaged cheese, sugar, salt, cookies and crackers, canned meats, canned soups, canned vegetables, flavorings, jams and jellies, peanut butter, and many other foods.

Retailers and wholesalers are expected to be given about four weeks to make the changeover to the new system.

One thing seems sure: The new system will still leave the housewife somewhat confused. She still won't have any clear way of knowing what her grocer's ceiling prices are.

wanted him to "come down this week end."

Substituting for Dawson was his special assistant, Martin L. Friedman. The latter told a reporter that Dawson had agreed to speak some time ago when he thought he would be in town.

Friedman began his remarks by saying his observations were his own, not those of Dawson.

"If anyone doesn't like what I have to say, you've got only me to blame," he said.

Friedman noted, however that Dawson had shown a "keen interest in development of a career service, being a career man himself."

He said there is no "push button system for getting the best man for a government job."

One of the main problems today, he added, is to get professional societies in agreement on "just what makes a good public administrator."

O'Connor outlined the general plans of the committee in a statement made up of excerpts from a speech he made here earlier this week to the American Legion's un - American activities committee. His office said the text of the speech was not made public at the time.

14-Year-Old Girl Has Short Career At Strip-Teasing

New Orleans, March 10.—(AP)—Police today ended the brief striptease career of a 14-year-old redhaired girl in a French quarter night club.

Officers arrested the club owner, master of ceremonies and a woman who allegedly got the girl the job and booked them with contributing to the delinquency of a minor. All were paroled.

The red head, from Brookhaven, Miss., held at a detention home, seemed puzzled by the ruckus.

"The stripping was just a way of making a living," she said. "I got $30 a week. I told them I was 20 years old."

She said there was really nothing to dancing professionally.

"For my first job I just bought a costume, put it on, went out on the stage, and took it off," she said.

The teenager started her stripping career a week ago.

Fresh Massacres In China Charged

Taipei, Formosa March 10.—(AP)—The Chinese Nationalist today charged fresh massacres in Red China.

Taipei newspaper publishers declared the purge was only the first stage of a Russian plan to cut China's population by at least 200,000,000.

Chiang Kai - shek's Nationalist ministry of defense submitted new figures on asserted executions by the Reds. The ministry recently said that 1,000,000 persons already had been put to death out of 25,000,000 marked for execution.

The Taipei publishers appealed to the world's free press to condemn the Reds for the massacres which they said were but the preliminaries to a Russian goal of 200,000,000 lives.

TURKS, AUSSIES WANT U. S. HELP

Requests Further Commit Uncle Sam To Solving World's Problems

Washington, March 10.—(AP)—Urgent requests from Australia and Turkey for security guarantees from the United States have confronted the American government with a critical decision on how far and how fast it can extend its military commitments.

Under direction of the national security council, headed by President Truman, this problem is now being investigated by the state and defense departments, particularly in relation to a Mediterranean alliance.

There are strong pressures behind the pressures for a Mediterranean security arrangement which Turkey has been urging for several months.

As for the Pacific, high state department officials are convinced though formal policy decisions remain to be made, that some kind of security system must be worked out there in the next three or four months.

This project is considered of great urgency because it now appears that unless Australia gets an American guarantee of help against any resurgent Japanese militarism it will object to signing a peace treaty which does not prohibit Japanese armed forces.

This form of a Pacific pact has yet to be determined but current thinking is along the line of an Atlantic - pact - type treaty covering Australia, New Zealand and the Philippines, with the way left open for Japan to join in once it gains independence through a peace treaty. Top state department officials would like to see a peace treaty signed this summer and put into force by winter.

Greater speed is possible on a Pacific treaty than on the Mediterranean project and in fact government thinking is much farther advanced. The main reason for this, officials say, is the kind of commitment which the U. S. would undertake or might be asked to undertake in each case.

Senator Chapman Funeral Is Held

Washington March 10.—(AP)—The friends of Virgil Munday Chapman's 25 years in congress attended funeral services for the Kentucky senator here today.

Clerks and stenographers supreme court justices and cabinet members, colleagues and departmental workers paid last respects to the lawmaker, victim of a traffic accident. The service was held in a funeral home.

The senate chaplain, the Rev. Frederick Brown Harris, spoke words of consolation and quoted from eulogies given in the senate "in a sort of mosaic depicting the life, character and service of the late senator as his colleagues saw him."

2 Mentioned As Iran's Premier

Tehran, Iran, March 10. —(AP)— Two men are being prominently mentioned today as successors to the slain Premier Ali Razmara. One is an extreme right wing nationalist. The other is the man who directed the routing of Soviet-supported Communists from Azerbaijan.

Shah Mohammed Reza Pahlevi now is weighing what to do about forming a new government — one that appears headed for trouble no matter who is chosen. Either one would be on a political tightrope.

The cabinet which served under Razmara resigned formally today, in accordance with the constitutional provision which requires this upon the death or retirement of a premier.

'Iron-Lung Girl' Dies In Canada

Winnipeg, March 10.—(AP)—Inez Woollam, Winnipeg's "iron - lung girl," died today in hospital, a three-week bout with flu after almost 15 years in an iron lung following infantile paralysis caused her death.

Miss Woollam, then 22 and engaged to be married, caught infantile paralysis in September, 1936. She recovered partial use of her hands but her breathing was always impaired. She had to be evacuated by boat from a hospital —still in her iron lung—when the Red river flood stuck Winnipeg last May.

Bomber With 12 Aboard Missing

London, March 10.—(AP)—A U. S. Air Force B-29 superfortress, with a crew of 12 aboard, is missing on a training flight, a spokesman for the third air force said tonight.

The plane left the Royal Air Force Base at Lakenheath, Eng., yesterday, on a round-trip flight and was due back this morning. The bomber was reported last over Almeria, in southeast Spain. Units of the U.S. and British Mediterranean fleets and U.S. air force planes are searching in that area.

Anderson Raps Cotton Ceiling

Baton Rouge, La., March 10.—(AP)—Federal price ceilings on raw cotton are doomed to failure as "unworkable," Louisiana's commissioner of agriculture said today.

Commissioner W. E. Anderson recommended instead the use of ceiling prices on finished cotton goods, similar to those of World War II.

"Any price ceiling on raw cotton will certainly be unworkable because of the many factors involved and the multiplicity of grades that enter into the marketing of cotton," Anderson said.

The price program, recently adopted by the office of price stabilization, should be rescinded, Anderson said. He contended it will destroy incentive to trade in cotton and discourage financing of cotton production.

He said Louisiana's congressional delegation will be asked to seek revision of cotton price control policy.

BUILDING CURB EASED

Washington. —(AP)— Stiff credit curbs on new commercial construction—requiring a 50 per cent cash payment—won't apply to office buildings and warehouses "essential to and an integral part" of a manufacturing business.

The federal reserve board has decided these buildings will be made exempt, along with factories themselves, as a spur to production.

JOHNSTON DENIES LABOR'S CHARGES

Denounces As 'A Lie' Allegation That He Dictated Wage Board Policy

Washington, March 10.—(AP)—Labor union charges that Defense Mobilizer Charles E. Wilson dictated wage stabilization board policy were denounced by Eric Johnston today as "a lie."

Johnston, economic stabilization director, issued a statement saying:

"The old rumor that Mr. Wilson dictated or influenced decisions of the wage stabilization board is heard once more in some labor circles.

"I want again to nail that discredited accusation for what it is — it is a lie. Those who have been repeating it must surely know too that it is false."

Johnston has been trying for weeks to get the board functioning again, following a walkout of labor representatives. They quit in protest over what union leaders called too rigid wage controls and too loose curbs on prices.

In a radio address last night, Johnston said he was "encouraged by the prospects that we will find a fair and workable solution" to the controversy.

This theme carried over into today's statement. Johnston said:

"We are all — representatives of labor and management and government — now engaged in discussions to get a board back into operation.

"Differences obviously exist among the groups but the honest desire of labor and management representatives to re-establish a functioning tri-partite board has been demonstrated time and again in my talks with them during the last few days."

Body Found On Railroad Car

Bogalusa, La., March 10. —(AP)— An unidentified dead man was found aboard a Gulf, Mobile and Ohio gondola during switching operations here early today.

Washington parish Coroner R. R. Ward said that the man died of suffocation and bruises after the "tail gates" of the car fell on him.

The gondola on which the body was found arrived here at 1:55 a. m. from New Orleans and was discovered shortly thereafter when Engineer Charles Stockstill saw the man as he began switching cars in the south railroad yards.

Coroner Ward fixed the time of the man's death at about 10:30 p. m. yesterday.

Police Chief W. E. Boyd said that the man's clothing had no laundry marks and that no identification was found. He appeared to be a railroad bum, the police chief said.

The body was taken to a local funeral home, where fingerprints were made by the police department.

The man was described by police as being about 5 feet, 10 inches tall, weighing about 145 pounds, with black hair and grey eyes.

DELMA DUNN IN KILLER ATTACK

West Monroe Flier, Flying Corsair, Helps Touch Off Operation

Ensign Delma D. Dunn, U. S. N., 306 North Third, West Monroe, took an active part in the United Nations maneuver in Korea called "operation killer."

In a navy news release the report read as follows: Aboard the U. S. S. Valley Forge in Korean water. When four navy aviators from this aircraft carrier returned to their ship February 23, they hardly realized that they had helped touch off the United Nations' "operation killer."

As usual they gave their report of the strike to the air intelligence officer. In this case the four flew in separate flights in action that sounded fairly routine.

Two of the group, a Corsair fighter-bomber flown by Lt., Jg, Ted M. Smyer, San Diego, and a Skyraider dive bomber flown by Lt. Jg., Bob Webster, Warren, Ohio, were directed to a target just north of Chipyong in west central Korea.

Communist troops well dug in split trenches atop a high ridge, were holding up the United Nations advance. The U. N. ground controller asked for close air support, explaining that the lines were only a few yards apart and that to do any good bombing they would have to fly extremely close to U. N. forces.

According to Lt. Smyer, "That's what we did. After several direct hits on top of the ridge, we saw troops actually climb out of their foxholes and run down the hilltop exposing themselves to the fire of our soldiers."

Almost the same thing happened that afternoon. Two other carrier pilots Lt. Jg., T. Roberts, Norfolk, Virginia, flying a Skyraider, and Ensign Dunn, flying a Corsair, picked up the same ground controller who directed them to the same ridge.

A day later a dispatch was received aboard the Valley Forge from the joint operations center in Korea asking for the names of the four fliers and offering congratulations for an "excellent job of percision bombing." The dispatch said that when American troops later captured the ridge, approximately 500 dead Communists were counted.

Ensign Dunn is the son of Mrs. Ruth Dean of West Monroe and the grandson of G. C. Tullos of Olla.

FAMED DUELING PISTOLS STOLEN

Weapons Reported Given To Ralph Waldo Emerson As Joke

Houston, Tex., March 9.—(AP)—Two dueling pistols that may have been given Ralph Waldo Emerson as a joke by a famed British essayist are missing from the rare books room of Rice Institute.

Newspapers learned only yesterday of the theft—which could have been any time between February 23 and 27.

The pistols may have been given the American poet by Walter Savage Landor.

Dr. W. S. Dix, Rice Institute librarian, reported the theft February 28 with a request no publicity be given the incident.

The pistols had been given Dix by Dr. J. Brian Eby, a consulting geologist, to try to determine whether Landor had given the pistols to Amerson.

One pistol was inscribed: "From Walter Savage Landor."

The other was inscribed: "To Ralph Waldo Emerson."

Eby said he acquired the firearms as a fee from an antique dealer.

Dix locked the pistols in their case in the Rice library's rare books room. He found them missing the day he reported the theft to police and said they could have been stolen between February 23 and 27.

The lock on the rare books room had been tampered with, Police Investigator A. B. Lott said.

The police report carries Dix's opinion on the authenticity of the antique dealer's report that Landor gave the pistols to Emerson:

"I have a hunch such is the case but so far have no written evidence to support it. They were probably given to Emerson as a joke because his aversion to firearms is well known."

Landor was a famed essayist and poet who lived a turbulent life in his span—1775 to 1864. Biographers report he once equipped and led a regiment to Spain in 1808 to fight Napoleon.

Reference books say Emerson met Landor while abroad in 1832.

18 1/2 DRAFT BILL EXPECTED TO PASS

House Working On Measure After Senate Passes Its Own Version

Washington, March 10. —(AP)— Chairman Vinson (D.-Ga.) today predicted speedy approval by the house armed services committee of a bill authorizing draft of youths at 18½ years and a universal military training program.

The committee will take up the measure tomorrow. Vinson said he hoped to get it before the house Wednesday and expected to see it passed before Easter.

The senate yesterday passed its own military manpower bill, calling for eventual universal training, but setting the draft age minimum at 18. The differences must be reconciled in conference committee after house action.

The house bill would extend service of draftees from the present 21 months to 26; the senate voted for 24 months.

The house bill throws tighter restrictions about the training program which would apply to all youths at 18½ after the emergency buildup has stabilized the military forces. It would make control entirely civilian, and keep a congressional eye on things.

The senate would begin the training under this program at 18.

The house bill puts a 4,000,000 man ceiling on the strength of the armed forces. This was written into the senate bill over objections of military leaders. The present defense department goal is 3,500,000 on active duty by mid-1951.

The bill would terminate the draft itself on July 1, 1954. It is presumed that at that time—barring a worsening of the world situation—the size of the armed services will be on a stable basis and that the universal training plan will be operating.

Under the house bill, congress retains power to sanction, disapprove or require changes in the universal training program.

It requires that congress is to have a detailed report on it every six months.

Sensationalism Bogs Probe At Angola; Unrest Studied

By Warren Rogers, Jr.

Baton Rouge, La., March 10.—(AP)—Citizens who plumbed this week for the root of trouble at Louisiana's penitentiary were quickly bogged in a swamp of sensationalism, charges and counter-charges.

Out of the morass of testimony and through continued, detailed delving, they hope to find a cause and a cure.

The 34 citizens—newspaper and radio men, judges and law officers—were appointed after 37 inmates of the Angola, La., penitentiary slashed their heel tendons in protest against "brutal treatment."

Gov. Earl K. Long, who named the group, gave it a free hand and promised to "try to carry out" it recommendations.

The investigations most dramatic point—like a second act curtain, perhaps — came late Thursday, the second day of interrogation at Angola. Mrs. Mary Daughtry, the prison hospital's only registered nurse, played the leading role.

Mrs. Daughtry, 41 and a prison employe for the past seven years, handed the committee four things: A package of heroin, two photographs of nude women and a four-page, tightly-typed statement.

The narcotic and the pictures, Mrs. Daughtry said, were evidence of immorality within the 8,000-acre prison farm. She said she had bought them to show they are supplied by prison employes and sold among its 2700 inmates.

In her statement, Mrs. Daughtry described Angola — reached by one road off the main highway in West Feliciana parish—as a "sewer of degradation" which is "still in the dark ages."

Her criticisms were as sensational as any submitted by the several convicts—heel - cutters, hardened criminals, thieves, sex deviates—interviewed by the committee. But she also offered recommendations and, in some of these, she was joined by Angola officials as well as inmates.

On the question of brutality, testimony was in striking conflict.

Heel-cutters and other rebellious prisoners called before the committee said they were beaten regularly, with hickory sticks and leather straps, and without provocation.

"We get beat for breakfast, dinner and supper," said one.

But the less quarrelsome denied this. If an inmate minded his business and followed orders, they said, he was left alone.

One field foreman, hired at about $190 a month, was singled out by several prisoners as the man who beat them. But he appeared to say he had never struck nor cussed a prisoner in 22½ years.

It was on the issue of rehabilitation — classification and segregation of inmates, education, recreation, living conditions, food and clothing—that a degree of unanimity was achieved.

Of rehabilitation, Mrs. Daughtry said:

"I have seen almost 7,000 men discharged from this institution and not one was as qualified to enter society as he was the day he was admitted."

She said first offenders are exposed to the state's worst criminals—thieves, murderers, sex degenerates — in "huge dormitories" that "are filthy and stink like the hold of a slave ship."

She recommended better sleeping quarters, food and clothing; segregation of inmates; discontinuance of the inmate guard system; increased medical care and a civil service merit system for hired personnel.

Warden Rudolph Easterly told the committee, in effect:

"Our needs are many but our finances few. We need a single authority—instead of two heads, a warden and superintendent—to run the penitentiary. We need fewer but better trained and better paid hired personnel.

"We need a fully-staffed hospital, psychiatrists and 600 cell blocks instead of the few big barracks we have. We should have a classification system to find out what a prisoner can do so he can be better trained for a role in society.

"We should have a separate, walled prison—away from the farm — to teach inmates skilled trades. Most of our prisoners are city boys and this farm work just about kills some of them."

Several inmates spoke out against Angola's practice of rewarding well-behaved, prisoners by making them trusty guards, some of them armed. Of this, one committeeman observed:

"It destroys leadership among inmates. By making the best prisoners guards, you mark them as pets and they lose any effectiveness as potential leaders for good."

All of the convicts asked about recreation facilities said there were virtually none.

"I saw a baseball, an old mitt and some spikes once," was one wry reply.

This lack of recreation, Mrs. Daughtry said, turned many inmates to alcohol, narcotics and homosexual love affairs as outlets.

A state senator who appeared, as well as an inmate who testified, suggested that Angola be "taken out of politics." The legislator said the penitentiary had been "a political football for as long as I can remember."

Chairman Dolph Frantz, editor of the Shreveport Journal, has named subcommittees to carry on detailed investigations. The group's report, based on its total findings, will be made in about a month.

An ancient formula for writing plays goes like this: First act—Get your hero up a tree; second act—throw rocks at him; third act—get him down.

If the heel-slashing rang down the curtain on Angola's act one and the committee's two-day investigation was act two, the third and final act has begun.

Public Forum

Rayville Colored High School:
Rayville, La.
Editor Public Forum,
Morning World, Monroe.
Dear Sir:

We have read with much interest and appreciation the fairness and non-partial attitude you and your staff deal with problems of public interest.

We the students of Rayville Colored High have a serious problem that affects the entire student body. This problem is our poor hot lunch program. We realize the program is based and run on a budget which must be kept at a minimum but this minimum is not enough. We don't know if it is because of a small allotment made by the state that is the reason that our food is so poor, but we do know that it is not properly prepared. We would like much to have the general public of Rayville come to our school at lunch time and see what is being served.

This does not have to exist at all because we have in our school a well qualified home economics teacher fully capable of operating and supervising. But instead we have over this program one who lacks all qualifications as a dietician. What we are served would eventually make mice and rats grow weak and die.

If the entire budget is too small to give us a decent meal, we would rather enjoy a sandwich well prepared than the slop that we are now given.

I am writing this as an invitation to our parents to come and see for themselves, that we are really hungry when we come home from school. Through lack of knowledge parents believe that it is adequate.

Kind sir, we are at your mercy asking that you print this entire letter with the hope that parents will come and investigate. We as students will be very grateful for any consideration we may receive.

Sincerely,
Rayville High Students.

B-36 AND A-BOMB

Washington—(AP)—It seems like a good bet that the B-36 will have a part in the forthcoming A-bomb tests at Bikini.

The big plane could fly easily from the U. S. mainland to Bikini, but the test would smack of real combat conditions since it could not carry enough fuel to fly back. It would have to go on to another and closer "friendly" base.

Students Tour Newspaper Plant

A group of the "Future Business Leaders of America Club," of Ouachita Parish High School visited the News-Star-World plant Saturday morning and saw the process of making an edition of a newspaper.

Included in the party from Ouachita were: Mattie Coates, Geraldine Vascocu, Fleyce Simpson, Gloria Campbell, Virginia Farrar, Elmer Fant, Ora Trichell, Jimmie Gammill, Mary Sue Coates, students, and accompanied by Lanier Thompson, faculty adviser, and Ellen Fontenot, co-sponsor, respectively.

Each Saturday the lcub visits some local business in the Twin City Area and will next visit Radio Station KLIC studio and transmitter, Saturday afternoon at 1:30 p. m., March 17th. Dr. F. P. Cerniglia has said that he expects to make some recordings during this visit. The remaining newspapers in this area will be visited by the club at a later date.

Now that the 1951 offerings of the motorcar industry have had a chance to strut their stuff, we ask you—can there be any doubt which is the really smart buy?

If you want a "new look"—Buick has it. That sturdy push-bar forefront says "1951" to all who see it—and provides unsurpassed front-end protection to boot.

If you want power that you can live with through many moons to come—Buick has that too. Years of expert engineering have made Buick's thrill-packed Fireball engine just about as dependable as a power plant can be.

If you want features that combine present pleasure with long-time durability, consider this:

Buick's level-going ride stems from coil springs on all four wheels which are virtually break-proof and never need servicing.

Buick's Dynaflow Drive* takes the strain out of every mile of driving—and pays off by eliminating any need for friction clutch repairs and replacements, by reducing engine and transmission upkeep, and lengthening life of tires.

If you want room and comfort and handling that make any trip a breeze—there's no simpler way to find them than to take over a '51 Buick Special, Super or Roadmaster—relax and enjoy yourself.

And if you want all this at a minimum outlay of dollars—one look at Buick prices will settle this point.

So the smartest thing you can do is get in touch with your Buick dealer. How about doing that right now?

*Standard on Roadmaster, optional at extra cost on other Series.

Equipment, accessories, trim and models are subject to change without notice.

NO OTHER CAR PROVIDES ALL THIS:

DYNAFLOW DRIVE—saves strain on driver and car
FIREBALL POWER—high-compression, valve-in-head engine gets more good from every drop of fuel
PUSH-BAR FOREFRONT—combines smart style and unsurpassed protection
WHITE-GLOW INSTRUMENTS—greater clarity at night
TORQUE-TUBE DRIVE—steadies ride, improves driving control
4-WHEEL COIL SPRINGING—cushions ride, saves servicing costs
DUAL VENTILATION—outside air fed separately to right or left of front compartment
SELF-ENERGIZING BRAKES—hydraulic—multiply pedal-pressure five times at brake drum

WORLD'S LATEST MARKETS

NEW YORK STOCKS

New York, March 10.—(AP)—Early signs of strength in the stock market today dwindled away into small losses.

The dip carried down about a dollar at the most with the bulk of the list off only small fractions. Scattered gains went from a few cents to beyond a dollar. Volume came to an estimated 550,000 shares, the lowest on a Saturday in around four months.

The whole market was without decisiveness or apparent significance. The first two days this week prices dropped on average, and the following two days prices rose. Yesterday the market was unchanged. The two-hour session today added little to that performance.

New York

New York, March 10.—(AP)—Cotton futures trading was fairly active today with new crop months experiencing general selling. Nearby March and May deliveries continued to hold at ceiling levels. Dealers said that prospects for a heavy crop production this year were responsible for the lower trend.

Futures closed unchanged to $1.75 a bale lower than the previous close.

New Orleans

New Orleans, March 10.—(AP)—Cotton futures continued irregular here today with the March and May positions still hanging around the government ceiling price while the new crop months were under the influence of long liquidation.

Closing prices were steady 5 cents to $1.40 a bale lower.

Switching operations from nears to distants and prospects of heavy production this season caused the easiness in the new crop months. Trade buying and short covering supported near months. Spot cotton remained unchanged at the government ceiling price of 44.91 cents a pound. Local spot cales amounted to 67 bales.

Middlewesterners Say Ike Can Win On Either Ticket

By Relman Morin

New York, March 10.—(AP)—In the middle west, people say that Gen. Dwight Eisenhower can have the job—and you know which one—running on either ticket.

That's the story, repeated with little variation, on the farms, in offices and factories, and wherever state of the nation, and the world people sit around, talking about the in general. Apparently, you can sum up the big fact in political thinking on the Great Plains with one line from that current song: "They like Ike."

Neither the professional politician nor the man on the street would go so far as to say Eisenhower can win the nomination. That riddle about his political affiliation, if any, which was so much discussed in 1948 is being talked about again today on all sides.

But whether the general is a Republican or a Democrat seems to be of no great importance. The vast shadow of his personal popularity, in that section of the country, apparently has obscured party lines to a very large degree.

The reasons for Eisenhower's prestige, and the impression he has made in the consciousness of the middle west, are not entirely crystallized. Perhaps because he comes from Kansas. Perhaps it is nothing more than his smile. Possibly, the Iowa farmer described one of the main rivers of feeling when he said. "The way I look at it, he's the only one who knows the situation—about the Russians and all that."

A St. Louis manufacturer had this thought: "Here we are, spending ourselves and Europe and throwing money around. Eisenhower ought to know just how far that has to go." And he added, "Of course, nobody knows how he feels about business."

Whatever the reasons, the popularity exists.

Now, in view of the general's present job, as the military leader of the north Atlantic pact nations, and his report to congress when he came back from last month's tour, what about that well-believed story of "isolationism' in the middle west? How do the two things square up?

First of all, you have to define "isolationism."

A fair definition might be: A man who believes American troops should fight only in case of a direct attack on American territory, that American resources should be used first to further American interests, and that assistance to any other nation should be measured solely by the contribution that nation can make to American interests.

More than a century ago, a British statesman put it simply: "Nations have no permanent friends. They have only permanent interests."

In any case, the alleged isolationism of the middle west is not easy to find and pin down. You run into completely contradictory sets of facts.

Periodically, the Associated Press asks newspapers in all parts of the country to report on the type of letters they are receiving. The object is to determine broad bands of popular opinion on such subjects as what the U. S. should do about the Korean war, about sending troops to Europe, etc.

The most recent survey showed localities like Chicago, Columbus, Milwaukee, Port Huron, Sioux Falls, Des Moines and Kansas City reporting — almost unanimously—a bulk of readers' letters expressing opposition to sending troops to Europe, and to continuing the Korean war.

Dissenting opinions came from newspapers reported the sentiment Detroit and Minneapolis where was "even' on the troops-to-Europe issue.

That does not entirely check with the reaction I was able to assemble in most of those same areas. In fact, it does not mesh, at all.

In Iowa, for example, people claim that the increase in industry brought about a decrease in Isolationist sentiment. During and since World War II, a very large degree of industrialization took place in what used to be an almost completely agricultural state.

The very fact of manufacturing, not only weapons but ordinary articles for export abroad, Iowans say, has turned their eyes more frequently overseas, and increased their understanding of foreign problems.

They remind you that a group of 26 Iowa farmers paid their own way to Europe, two years ago, to study the Marshall plan at close range, and get the point of view of the European farmer. And they ask: "Is there any other section of the country where people took that much interest?"

They also cite the case of Vandalia, Mo., where the citizens chipped in to send Lincoln Kelly, the postman, to England a few months ago, to study the same questions.

Again, contrary to other findings, Norman Isaacs, managing editor of the St. Louis Star-Times, told me that he "has never received so many letters disagreeing with Taft on the question of sending troops to Europe."

Newspapers in cities and small towns throughout the middle west print as much, and possibly more, foreign news, proportionately, than the big city journals.

And this is from a column by Harlan Miller, a widely-read columnist on the Des Moines Register and Tribune:

"Recently, I've begun to think quite a lot about Junior's next birthday. He's 18 in May, and the army will be reaching for him. If he's away 27 or 30 months, I'll miss him like blazes, but I decline to let myself get worked into a tantrum about it.

"The better half takes it all fairly calmly, too. She loves him as much as other mothers love their young son, but she hasn't written, phoned, or telegraphed her senator. Nor does she bluster about making 30-year-old patriarchs with nine children go first."

In Albion, Mich., some high school students asked me about the justice of drafting 18-year-olds. One of the boys said, "most of us figure we're going to have to fight overseas, and that's all right. But if we're old enough to do that, why aren't we old enough to vote?"

Well, it is next to impossible to know, except in broad strokes, what millions of people are feeling in any area. Doubtless, they don't know, themselves, and certainly their attitudes can change from day to day—as the public opinion polls discovered in the recent past. A one-man poll is even more difficult.

You recall that, in 1948, a woman said she didn't know anybody who had voted for Harry Truman, yet there he was, elected president again. Her maid replied: "Maybe you just don't talk with the right people, ma'am."

Maybe I didn't talk with the right people, either, in the trip through the mid-west. But the ones I did query were clear and emphatic on two points—

Isolationism is a thing of the past, for all practical purposes, and General Eisenhower is on the crest of one of the biggest popular ground-swells in political history.

GRAIN

Chicago, March 10.—(AP)—Grains, soybeans and lard moved lower on the board of trade today under liquidation which, while never very heavy, nevertheless was persistent.

Negro Stabbed To Death, Woman Faces Murder

.... BH

Barred doors of the Ouachita parish jail yesterday afternoon clanged shut on a 28-year - old Monroe Negro woman charged with murder.

Police detectives arrested Janie Johnson, 1510 Breard street, at 4:30 p. m. She told them she stabbed an elderly Negro man—Reese London, about 60—to death in self defense.

The killing took place at her home, police said.

Capt. Hugh Tolbert, head of the city detective force, said London was a former janitor at city hall.

Tolbert said the woman told him she "stabbed London while he was advancing on her with a knife in his hand.

He said the Negro died almost instantly. The wound was near his heart.

'Chicken Feed' Schemers Caught

Bogalusa, La., March 10. —(AP) Five little Negroes, scheming to obtain "chicken feed" for chicken feed, were charged with juvenile delinquency today after police literally "trailed" them.

The lads, ranging in age from 8 to 15, sold a corn sack and nail keg full of corn taken from Gulf Mobile and Ohio boxcar to a Negro woman on credit. Grains of corn spilled along the way led to their arrest.

DRESS BLUES IN OMBAT

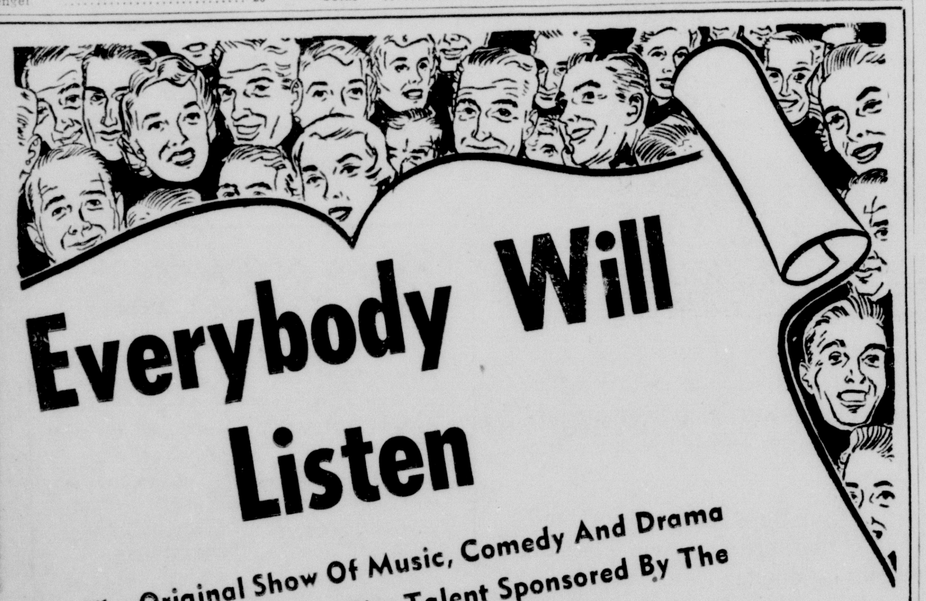

With The First Marine Division in Korea—(AP)—Marines resting beside a dusty Korean road recently were slack-jawed with amazement as an automatic rifleman strolled through their position in dress blues.

Marine Private First Class Norman L. Hoeker, 22, of St. Joseph, Mo., explained:

"While in California I asked my mother to send me my dress blues. But before they arrived, I was on my way to Korea. The marine corps postal section dutifully sent the package after me. Thinking it was a Christmas package delayed because of the rush, I opened it to share the contents with my squad. They dared me to wear them and I did. I just hope the colonel didn't see me."

BASEBALL MEET SLATED MONDAY

Amateur Teams To Gather In West Monroe, Discus League Plans

Mose Bayles, president of the newly-formed West Monroe Baseball Club, spoke confidently last night of the chances for a sixth team filling the gap in the formation of a baseball league in this area, patterned after the Big Eight loop.

Bayles said the five towns represented last week would return tomorrow night, and George Sumlir of Delhi had agreed to bring delegates to the meeting this time to give a definite answer as to whether or not Delhi will enter.

If Delhi decides to enter, Mangham, Urania, West Monroe, Columbia and Bastrop are expected to follow suit. The last five teams had representatives at the meeting last week, and all agreed to give definite answers tomorrow night.

The meeting tomorrow will be held again at the Crosley Grammar School on Natchitoches street in West Monroe, beginning at 8 o'clock.

Urania and Columbia were fairly certain of entering last week, and the Bastrop officials expressed a definite preference for playing in a league, rather than remaining independent. John Boughton of Mangham promised to come back this week with an answer from his club backers.

The West Monroe club, a combination of the old West Monroe Rebels and Volunteers, are clicking along smoothly under the new setup, according to President Bayles.

"Everybody from the fans to the players are happy about the move," Bayles said, "and they're all chipping in to help out as much as possible."

Mat Surkont, who won five games and lost two for the Boston Braves last season, batted .435 in nine games.

Irish Girls Win Over St. Vincent

Shreveport, La., March 10. —(Special)—The St. Matthew's Parochial School girls' basketball team of Monroe defeated St. Vincent's Academy of Shreveport, 37 to 34, here this afternoon with Maria Maggio, St. Matthew's leading the scoring with 16 points.

Doyle was high scorer for St. Vincent's with 12. Sarah Conti, St. Matthew's, and Freddie Jones of the host team each posted 11 points.

Appearing in the game for the rival teams were:

St. Matthew's-Maggio, C. Tichelli, M. Ticheli, Varino, Conti, Biggar, Inzina, Eberts, Shipp, Spatafora, and DeLarot.

St. Vincent's - Jones, Phelps, Rhina, Doyle, Welch, Nyrian, Cano, Fulco, Kelly, and Bossette.

Ford C. Frick, current president of the National League, is the ninth holder of that office since the League was organized in 1876.

Bashara To Battle Mobley In Mat Feature At Kallio's Tuesday Night

Semi-Final Event Will Bring Together Al Perry And Balk Estes

Ellis Bashara, master trickster of the wrestling ring over did himself in villainy here last week to be disqualified in a scramble with Jack Curtis, returns to Gus Kallio's Arena Tuesday night for a main event tussle with Rex Mobley.

Mobley, like Curtis, is a former holder of the world's light heavyweight crown, and both are seeking to lift the belt from "Buff" Serois, the new kingpin of Buffalo, N. Y. Bashara, voicing no title aspirations, is content to knockoff the matmen who would like to climb.

The feature match will have a time limit of 90 minutes with two falls to win.

The semi-final attraction opening the night's program at 8 o'clock, will bring together Al Perry and Balk Estes for an hour time limit scramble, also with two falls to win.

Perry will be a newcomer to Kallio's arena, moving in from the Texas circuit where he has been working in recent weeks. Estes, a classy tussler from Oklahoma, also is an ex-ruler of the light-heavies.

Capistrano Event Goes To Be Fleet

Arcadia, Calif., March 10.—(AP)—Be Fleet, at 5-2, won the $50,000 San Juan Capistrano Handicap, getaway feature at Santa Anita racetrack today.

The race was Be Fleet's all the way. Second in a drive to the wire was the Argentine Repeluz with Mocopo third.

Be Fleet paid $7.90, $4.50 and $3; Repeluz $4.10 and $2.70; Mocopo, coupled as an entry with Mooers' Sudan, $2.80.

Bill Bailey Cops King Cotton 'Cap

Hot Springs, Ark., March 10.—(AP)—F. L. Flander's Bill Bailey, next to the longest - priced horse in the race, won the fourth running of the $5,000 King Cotton Handicap at Oaklawn Park today.

The three-year-old bay son of Challedon and Victorious Ann went to the front after three quarters of a mile and withstood the stretch rush of Henry Forrest's United Nations to reach the end of the mile and 70-yard strip with three quarters of a length in his favor.

United Nations took the place honors, two and a half lengths in front of Adelarde Lamoureux's Wintag.

Jockey Jerry West guided Bill Bailey, a nominee for the Kentucky Derby, over a muddy course in 1:44.4 to pay $23.30, $9.40 and $5.00.

American-Owned Arctic Gold Wins Grand National Trial

London, March 10. —(AP)— Jock Whitney's Artic Gold won the Grand National Trial Steeplechase at Hurst Park today and became a clear favorite for the Grand National at Aintree on April 7.

The stylish American - owned horse made all the running in the three mile chase and finished an easy three lengths ahead of its nearest rival, Toy Serpent.

DEMPSEY, TUNNEY LAUD REX LAYNE

Utah Conqueror Of Satterfield Seen As Next Heavyweight Champ

New York, March 10. —(AP)— Rugged Rex Layne flew back to Salt Lake City today with a bruised rib, a sensational victory to his credit, and the praises of Jack Dempsey and Gene Tunney ringing in his ears.

The bruised area, taped up by Dr. Vincent A. Nardiello, will keep him idle about a month. Manager Marv Jenson said he normally would have planned to rest him up that much anyway after such a tough fight.

Jenson said the 22-year-old Lewiston (Utah) larruper's next fight here would be against either Heavyweight Champion Ezzard Charles or undefeated Rocky Marciano "if we can get them."

The game, likeable youngster, knocked down for eight in the first round, hitched up his trunks and battered out a technical knockout in the eighth round over Bob Satterfield last night.

He floored Chicago Bob with a short, perfect right to the jaw and Satterfield went flat on his back for nine. He was helpless and after taking two more blows the bout was stopped by Referee Mark Conn.

Dempsey and Tunney, the two great former heavyweight kings, were loud in their praises of Layne.

"Layne would beat Charles right now," declared Dempsey. "He'd have beaten either Charles or Joe Walcott in Detroit the other night."

"Not right now, Jack," said Tunney. "But in six months or a year Layne will beat Charles for the title. He's crude and he needs schooling. But you can't discount his great fighting heart."

Kinsman Claims Horning Handicap At Gulfstream

Miami, Fla., March 10. —(AP)— Mrs. J. Carson's Kinsman, an eight to one shot, came from behind today to win the $7,500-added Horning Handicap at Gulfstream Park by a length and a half over W. G. Helis Jr's Ennobled. Hickory was third.

Kinsman paid $18.20, $6.70 and $4.50 for a $2 wager.

Ennobled paid $3.80 and $3.30 while Hickory returned $5.30 for a $2 show ticket.

FERREIR HOLDS SHAKEY MARGIN

Klein Zooms From 18th To Second Place In Miami Beach Tourney

Miami Beach, Fla., March 10.—(AP)—Big Jim Ferrier battled par, a stiff east wind and plenty of competitive pressure today to latch on to a nervous one stroke lead in the $10,000 Miami Beach Open Golf Tournament.

The San Francisco veteran toured the Normandy Isle course in 70, two strokes under par, for a 54-hole total of 204.

It was a performance just barely good enough to withstand the challenge of Chuck Klein of San Antonio, Texas, who matched the course competitive record of 65 to clamber all the way from 18th place to the runner-up shot at 205.

Slammin' Sammy Snead of White Sulphur Springs, W. Va., also put the pressure on Ferrier as he covered the front nine in 33, three under par, to take the lead at the 45-hole mark. But Snead's shots went haywire on the homestretch and his par 72 dropped him to a third place tie at 206.

The low scorers:

Jim Ferrier, San Francisco 134-70—204.

Chuck Klein, San Antonio, Texas 140-65—205.

Ed Furgol, Royal Oak, Mich. 137-69—206.

Oklahoma City Indians Open Spring Work Here Under Ideal Conditions

Texas Leaguers Start Baseball Humming About Legion Memorial Stadium

The Oklahoma City Indians launched spring training at spacious Legion Memorial Stadium here yesterday morning in ideal weather with fourteen candidates for the Redskin club greeting Manager Tommy Tatum and aides in a two-hour workout.

Seven pitchers, three catchers, three outfielders, and a lone infielder were on hand for the drill conducted by Tatum and Harold Webb, the latter owner - manager of Midland, Tex., of the Longhorn League, and who broke into baseball with the old Monroe White Sox of 1937.

Appearing for the opening drill for the Texas Leaguers were Pitchers Johnny Beazley, the ex-Cardinal who twice tamed the New York Yankees in the 1942 World Series, Duke Markell, Rudy Paynich, Hugh King, Jake Henson, Eddie Jacome, and William Leon Hayes. Catchers were Kenneth Jones, Berton Solomon, and Joe Kratzer. The outfield trio was Eldon Wiersig, Robert Leonhard, and Allen "A. B." Cross. The lone infielder was Shortstop George Cox.

Old Monroe acquaintances were out to meet Cross, Beazley, and Webb. Cross covered center field for the Monroe Sports last year and has since been sold by Shreveport to the Oklahoma City club. Beazley, who barely missed wearing a Monroe uniform, played against the old White Sox here as a member of the Greenville, Miss., club before moving up to the St. Louis Cards. Greenville once tried to trade Beazley to Monroe, but the local club wasn't looking for a pitcher at the time and took a third baseman, Guy "Red" Pruitt, instead.

Beasley's first impression on arrival at Legion Memorial Stadium was that his memory had failed him. "Say, something's wrong. This doesn't look like the park I played in. There never was a park this good in the Cotton States when I was with Greenville." Then he learned its a new plant, while the old Casino Park, where he played against "Poco" Taitt's Sockers, is right now in the process of being torn down.

After Trainer Glenn Buckner had issued equipment, the Indians met in a brief pre-drill powwow with Manager Tatum who told his charges he wants plenty of hustle at all times.

"We may not be the greatest ball club in the world, but we're going to be the hustlingest," Tatum declared.

The Indians then followed with just what Tatum ordered. For two hours they never let up a moment, and perspiration was soon rolling under the warm sun.

Opined Tatum: "If this kind of weather holds well be ready for anybody in two weeks."

A veteran of 14-years in pro ball, Beazley declared after it was over: "That's the best opening day's workout I've ever had."

Today's session is scheduled to begin at 1:30 o'clock this afternoon. Weekday drills will continue to start at 10:30 a. m.

'Knothole' Gang Will Be Revived

Twin City youngsters received a post-Christmas present yesterday with the announcement from the Monroe Y's Men's club that the "Knothole Gang" would be reactivated within the next two weeks.

Nearly 300 Monroe and West Monroe boys and girls took advantage of the 1950 Knothole season and attended many of the home games of Monroe Sports as guests of the team.

The Sports with the cooperation of the Y's Men, made special bleacher space available to the young gang members throughout the past season. The team announced its intention this season of continuing the practice and opening the park to the youngsters on weekends.

Membership in the organization is open to any girl or by from eight through 14 years of age. The only condition attached to entrance is the permission of the child's parents and the payment of 10 cents to defray the cost of the club button.

Knotholers will be admitted to the home games of the Sports Friday, Saturday, and Sunday night of each week until the closing of school, when Thursday night will be added to the other free game nights. Admission will be granted only to members wearing 1951 Knothole buttons at the special gate set aside for their use. All members will be required to remain in the specified Knothole section.

Applications, according to the Y's Men, should be available about Monday week at Lockhart-Blair Sports Shop on North Second street.

Ruston La. March 10.—(AP)—The pre-tourney favorite St. Aloysius of New Orleans and Dominican High of New Orleans took home the Class AA state basketball championships tonight.

The St. Aloysius Crusaders polished off Istrouma of Baton Rouge in the boys' final 50 to 42, after leading by only one point 23-22, at the half, and the Dominican sextet beat out Terrebonne of Houma, 54 to 39, in the girls' final.

The girls' semi-finals saw Dominican beat Jennings 41-28 and Terrebone down Istrouma 41-31.

The St. Aloysius - Catholic game was close during the opening minutes, with the score knotted at 9-9 during the first quarter. But St. Aloysius, the New Orleans champion, pulled into the lead for good after that.

Catholic High became the third-place winner when Fortier forfeited a consolation game.

CHANDLER ISSUE BEFORE OWNERS

Stalemate Predicted At Meeting Tomorrow On Naming Commissioner

Miami Beach, Fla., March 10.—(AP)—Monday's epic conclave of the major league club owners to decide the fate of Commissioner A. B. (Happy) Chandler will result in a stalemate, a canvass of baseball executives indicated today.

From reliable sources, it was learned that each faction—pro and anti Chandler—has lined up five solid votes to block the other's move. Twelve of the 16 votes are required to elect a commissioner.

Only one thing can break the hopeless deadlock and stir the moguls to action in naming a man to succeed Chandler when his term expires April 30, 1952. That is for J. Edgar Hoover, a "dark horse" candidate, to decide to accept the position.

A member of the four - man screening committee, who declined use of his name, said Hoover, chief of the Federal Bureau of Investigation, had been approached by clubowners but has declined "reluctantly."

"There still is a chance he might change his mind," the committeeman said. "I believe if he decided to be a candidate, Hoover can win the unanimous consent of the club owners."

The screening committee consists of Phil Wrigley, Chicago Cubs; Del Webb, New York Yankees; Lou Perini, Boston Braves and Ellis Ryan, Cleveland Indians.

The five clubs reportedly pledged to vote for Chandler are Washington, Detroit, Cincinnati, New York Giants and Philadelphia Athletics.

The five who have joined forces to block the re-election of the former Kentucky senator are New York Yankees, St. Louis Browns, St. Louis Cardinals, Chicago White Sox and Boston Braves.

A stalemate would leave Chandler still in the driver's seat with an option of either remaining in office until the expiration of his term or buying out his contract which still has 13½ months to go.

The rest of the clubs are uncommitted, but it was believed that the Chicago Cubs, Boston Red Sox and Cleveland will vote for Chandler, Pittsburgh will not and Brooklyn and the Philadelphia Phils are on the fence. That would make the vote eight for Chandler, six against and two doubtful.

Jonesboro-Hodge Beats Neville In State Title 'A' Cage Finals

Darkhorse Monroe Tigers Bow To Jackson Parish Rivals, 50 To 37

Hammond, La., March 10.—(AP)—Jonesboro-Hodge beat Neville of Monroe at its own fast-breaking game to wrap up a 50-37 victory and the Louisiana Class A boys basketball championship tonight.

Oak Grove won the girls title by defeating Leesville 37-19.

Jonesboro - Hodge out-played Neville in a battle of fast teams in the first half to hold a 23-18 edge at intermission.

The winners slowed down the action in the last half with control ball.

James Shively of Jonesboro - Hodge took scoring honors with 17 points. High for Neville was Joe Messina with 12 points.

Baker defeated Hahnville 64-39 in the consolation game to win third place among the boys teams.

Oak Grove had little trouble with Leesville, leading most of the way in a slowed-down game.

GOLFING WIZARD HERE WEDNESDAY

Paul Hahn Will Be Presented By Bayou DeSiard Country Club

Bayou DeSiard Country Club is all primed for its opening feature of the 1951 golfing season here with the presentation of Paul Hahn nationally known trick shot artist Wednesday afternoon at 4 o'clock. The Ladies' Golf Association of Bayou DeSiard is sponsoring the event.

Hahn, hearlded as the newest star among golf's exhibitionists, will offer a varied show of trick shots, comical routines and an informative golf clinic with instructions in grip, stance and swing.

The repertoire includes hitting the ball from a sitting postion, driving from a kneeling position, hitting a series of shots from graduated tees, right and lefthand shots with the same club, driving from seat of a sportstick, hitting ball from a swinging pendulum, driving two balls — one a hook and the other a slice — at the same time, hitting balls with one hand off one foot, and hitting with no backswing.

Admission for the event will be $1, although high school students will be admitted free as a courtesy of the Ladies' Golf Association, it was announced last night by Club Pro Winnie Cole.

Bob Chase of Los Angeles designed this coffee table with an interesting new idea involved. The ceramic trays can be used as snack dishes, or as a planter, when set into the table in an upright position. When turned over, the ceramic trays become "tiles" onto which drinks can be set.

LONG INDUCTION PERIOD POSSIBLE

Fleischmann Says 10 To 20 Year Duration Could Raise 'Vast Problems'

Washington, March 10. —AP— Manly Fleischmann, the national production administrator, said today that U.S. mobilization may last 10 or 20 years. It raises "vast problems" for small businesses, he said.

Specifying that he was not criticizing the armed services, Fleischmann told the American society of public administrator that military and government procurement tends to "settle" with large concerns.

He said big business is able to do the job of defense production faster and on a larger scale than small business.

Fleischmann said his No. 1 problem therefore is to keep small business from going under in the mobilization period. He appealed to every American to help him.

The NPA administrator said that, unless an all-out war develops, the U.S. should be able to maintain a high level of production for civilian use.

He said temporary shortages of materials will require some curtailment of production for civilians for a year or a year and a half. But he added that expansion of basic material output will permit a speed-up on civilian goods by the middle or latter part of 1952, barring an all-out war.

Harold Stein of the committee of public administration in New York told the society that, if labor leaders are to go along with wage stabilization, "they must have assurance of stabilization of the cost of living, especially the price of food."

Stein, who served in the production program of World War II, said that Charles E. Wilson, the director of defense mobilization, knows how to set up factories. But he added that this knowledge is irrelevant to Wilson's present job.

Connally Scorns Demands That Vandenberg Quit

Grand Rapids Mich. March 10. —AP— A demand by the Detroit and Wayne county federation of labor that the seriously ill Senator Vandenberg (R-Mich.) resign his seat was labeled "unworthy" and "shameful" today by Senator Connally (D-Tex.)

The Texas Democrat asserted in a statement in Washington that "Senator Vandenberg should be continued in office indefinitely." He added that the demand "is shameful in view of his distinguished service to the state of Michigan and the United States and to the peace of the world."

Connally, chairman of the senate foreign relations committee, declared also that "it is unworthy to undertake to displace him (Vandenberg) in behalf of partisan politics."

Senator Vandenberg's office here said he had "no comment whatever."

Adoption by the federation of the resolution asking Vandenberg's resignation was announced by its president, Frank X. Martel, a Democrat active in Michigan politics.

Mrs. Frank Breese Hostess At Meeting Of The Review Club

The Review Club met in the home of Mrs. Frank Breese at 2000 Riverside, Monday. Immediately following the brief business meeting, the reviewers for the afternoon were introduced.

A review of "Corn Country" by Homer Croy was given in a most interesting manner by Mrs. W. L. Mitchell, Jr. Mrs. Mitchell said in part: "The corn belt is an openhearted, friendly country, and Homer Croy has written its story in a friendly, familiar style. His tone and manner are that of some local humorist telling stories to a group of cronies sitting on the porch of a country store. Mr. Croy has mixed his facts with jokes to make learning the country's history a pleasure. This is a chronicle that goes back to claim-jumpers and horse thieves, but comes right up to date with talk of radio stations, Henry Wallace's research into hybrid corn, and an account of what John L. Lewis's home town thinks of him. As a reporter and humorist, Croy has turned out an excellent regional portrait."

Mrs. Durwood Griffin reviewed the second book of the afternoon, "Arkansas" by John Gould Fletcher. The author tells a story of the dramatic impact of a migrating southern and eastern culture upon the roaring western frontier that was Arkansas. The story ranges from DeSoto's phantom gold to Arkansas's solid present-day wealth of cotton, rice, oil, bauxite, power and people. Some men lived by the code duelle; but with Indian territory and Texas next door a special breed of lawlessness prevailed, and most fights were settled with "Arkansas toothpick" or Bowie knife. Mr. Fletcher went into great detail concerning the historical background of the state and ended his book with a brief review of the people, the mountainous region, the agricultural accomplishments, the vast mineral deposits of the state, the health resorts, and a future of great promise and prosperity.

At the close of the program, the hostess served a delicious salad plate to the following members: Mrs. F. V. Barnett, Mrs. C. B. Braun, Mrs. Billy Inabnet, Mrs. Ben Cobb, Mrs. W. T. Davis Mrs. A. T. Givens, Mrs. C. P. Gray, Jr., Mrs. Durwood Griffin, Mrs. DeWitt Henry, Mrs. A. R. Holloway, Mrs. W. L. Mitchell, Jr., Mrs. J. P. Noel, Mrs. Sam Smith, Mrs. Lea Thompson and Mrs. Corbin Turpin.

FINE ARTS TO MEET

The Fine Arts Club will hold its March meeting in the new home of Mr. and Mrs. H. V. Mayo, Lakeside drive, Monday at 8 p.m., with Mrs. Maude Mayo as hostess.

She will be assisted by the following co-hostesses: Miss Marie Minard and Mrs. Edward Dalton.

GIRL SCOUTS TO CELEBRATE 39TH ANNIVERSARY OF ORGANIZATION

On March 12 more than a million and a half Girl Scouts, girls between the ages of 7 and 18, will join in celebrating the 38th anniversary of the organization. It was in 1912 that Juliette Gordon Low, a Savannah woman who had married an Englishman and while living in England had become acquainted with the Boy Scout and Girl Guide movements, returned to her native city, bringing what she called "the best thing yet" for the girls of America. Immediately she called her friend, Miss Nina Pape, saying, "Come right over. I have something for the girls of Savannah and of the United States."

Thus it happened that on March 12 was held the first meeting of the first troop. Customs, clothing styles, hair-dos have changed, but modern American girls in thousands of troops are still using the fundamental principles of that first troop—citizenship, the patrol system, code to live by in the Promise and Laws, and activities to carry out this code. Since Juliette Low's time the program and handbook have been revised periodically, so that the Girl Scout program of today is geared to the times, for the modern girl.

With a program made up of activities in eleven program fields, Agriculture, Arts and Crafts, Community Life, Health and Safety, Homemaking, International Friendship, Literature and Dramatics, Music and Dancing, Nature, Out of Doors, and Sports and Games, there is something to hold the interest of every girl.

Girl Scouts of the U.S.A. is an organization chartered by Congress. The national office is in New York, with 12 regional offices throughout the county. Ouachita Parish is a part of the Dixie Region, comprising the states of Louisiana, Arkansas, Mississippi, Alabama, and Tennessee. Internationally, it is a member of the World Association of Girl Scouts and Guides.

Though preceded by several lone troops, Scouting for girls of the Twin Cities really began with the formation of the Ouachita Parish Council in 1944. Mrs. P. G. Rowe was the first commissioner, serving in that capacity for four years. Since that time Mrs. George Forman, Mrs. Rodney Cline, and Mrs. Clay Albright have served as presidents. At present there are 43 troops with more than 600 girls under the jurisdiction of the Council.

An agency of the Twin City Community Chest, the Council bears the administrative responsibility for maintaining troops, securing leadership, giving adult training, seeing that girls have good troop program and camping opportunities. To advise them in their work, to coordinate and make more effective the work of volunteers, the council employs a professional who has had training in social work. For almost two years Miss Annis Klie has been executive director of the Ouachita Parish Girl Scout Council.

Girl Scouts of the Ouachita Parish Council will observe the anniversary with a Scout's own program at Ouachita Parish High School at 3:00 o'clock this afternoon.

LINEN SHOWER COMPLIMENTS MISS GENEVIEVE WHITE, BRIDE-ELECT

Miss Genevieve White, bride-elect of Dan Douglas McDuff, was feted at a linen shower given at the home of Mrs. Jessye Graves, on Wednesday afternoon. The cohostesses were Mrs. Roy C. Windsor, and Mrs. Frank Rives.

The living room of the spacious home of Mrs. Graves' made a charming and hospitable background for the guests who were invited to be seated. Spring flowers of narcissus and violets were used on the mantel and tables, with fresh and timely effect.

On arrival, the guest-of-honor was presented with a white corsage of carnations and hyacinths. She wore a navy blue sheer with red hat and accessories. The bride's mother, Mrs. Shelby White received a corsage of daffodils, as did the groom's mother, Mrs. William Haight.

After the guests were seated, Mrs. Hubert Sims announced the game of the afternoon which was modeled after the well - known "Stop the Music." Names of guests were drawn from a hat and if the music played was correctly identified, a question was asked concerning the court-ship of the engaged couple. When Miss White's name was drawn, she named, "I Love You Truly" as the piece played and then answered the "jack-pot" question correctly. This resulted in the shower of linens. Many handsome gifts were received by the bride-to-be.

The beautiful bride, who was given in marriage by her father, was attired in a stunnning spring suit of navy blue, accented with smart touches of oyster white. She complimented her ensemble with navy blue accessories and wore a corsage of American beauty roses.

Mrs. Charles Robert Fields, the sister of the bride, served as matron of honor. She chose a striking spring suit of iceberg green, with harmonizing accessories, and wore a corsage of cream rhanunculas. Charles Robert Fields served the groom as best man.

Mrs. Coley, the mother of the bride, selected a charming cocktail suit of bronze satin with which she wore a corsage of ivory rhanunculas.

Following the beautiful ceremony a small informal reception was given at the home. The bride's table was overlaid with a rich hand embroidered linen cloth and centered with an exquisite hand painted china bowl filled with peach blossoms and pink rose buds. BOOKS and MUSIC

THE CONS HAVE IT

In the early 1930's Dr. Donald Powell Wilson was sent by the United States government to conduct research in drug-addiction at Leavenworth penitentiary. A professor of psychology, Doctor Wilson was abashed upon his arrival to learn that his "staff" would be made up of six convicts.

The book which Doctor Wilson has written on his three years at Leavenworth, **My Six Convicts,** is mainly the story of these never-dull six: a small-time safeblower, a gangster known as Public Eenmy Number Four, a counterfeiter with the soul of an artist, a forger and drug addict, a brilliant college man, and a sort of "mother hen" who was sent up for transporting stolen cars across state lines, which he proudly called "interstate commerce."

Probably no other account of prison life ever written is quite as readable as "My Six Convicts." Doctor Wilson delves into their lives as wayward human beings, exploring their infantilism, their fabulous ability to get information, their pathetic need for self-importance, their sexual drives. But very rarely does any one man become a mere case-history. Doctor Wilson's lively account is filled with some of the most humorous anecdotes on record and he thoughtfully uses the story-dialogue method which makes much of his account read like a well-planned novel.

In addiion to exploring the relations of these six convicts, and occasional others, Doctor Wilson presents some very definite ideas on penal life and codes. If much of his discussion is insistantly humanitarian, it is because he is first of all a psychologist who must know the "why" in any situation. The greatest fault with "My Six Convicts' is that the six convicts are interesting enough as distinct personalities to rate larger coverage. It is to be hoped Doctor Wilson gains a nationwide audience with this first endeavor, and goes on to write even better books. (MY SIX CONVICTS. By Donald Powell Wilson. 369 pp. New York: Rinehart & Company. $3.00).

THE WORLD AND MR. PORTER

For many years Cole Porter has enjoyed a special little corner of the music world as the sophisticated master of low-down music with the high-class touch. A few seasons back he gave us the Broadway knock-out, "Kiss Me Kate," a rich and varied score that contained some of the nicest tunes and lyrics he ever wrote. Now he's back with another show, and another of his famous "spoofs." The spoof this time is on gods and goddesses and the score is titled "Out of this World."

Some of the music in "Out of This World" is reminiscent of 'Kiss Me Kate." William Redfield as Mercury, for example, sings a clever number called "They Couldn't Compare to You" which most Porter fans will undoubtedly compare to the earlier Alfred Drake opus, "Where is the Life That Once I Led?" The score incldes a couple of romantic tunes which show Porter at his best: "Use Your Imagination" and "Hark to the Song of the Night."

But the biggest pleasure of the entire recorded version of "Out Of This World" is 57-year-old Charlotte Greenwood, whose voice is as clear and delightful as ever. As the goddess Juno she sings two show-stoppers, "Nobody's Chasing Ne" and "I Sleep Easier Now."

But the album has its faults. Patricia Gillette's voice on some of the romantic offerings is below Porter par, and once in awhile the lyrics become uncomfortably foolish But on the whole, Mr. Porter has written an able score and his inimitable touch is still unmistakable. (OUT OF THIS WORLD. Cole Porter, 14 Sides, 33, 45, 78.)

AND MORE OF MR. PORTER

With "Out Of This World" sending Porter fans back to the dozens of tunes with which Cole Porter has dazzled quite a few continents over a quarter of a century, we might here take a look at one of his perennial sheet-music favorites, the Cole Porter Song Album.

I'm of the decided opinion that, whatever else Cole Porter is ultimately remembered for, his sophisticated blues and Latin tempos will always bear his name more swiftly and prominently than anything else he has written. "Night and Day," "What Is This Thing Called Love?", and "Begin the Begine" have already assumed the role of minor American classics.

In the Cole Porter Song Album (for piano, with guitar, banjo and ukulele accompaniment), many of these earlier hits, along with such familiar Porter show tunes as "You're the Top," are as good listening as any pop tunes more recent scorings we would come to the conclusion the newer Porter tunes aren't quite as "classic" as the earlier ones, but the recent Porter lyrics, with their trenchant wit and subtlety, have wider range and variety.

At any rate, from the moment Raymond Hitchcock sang Porter's first Broadway tune in the review "Hitchy Koo" many years back, there has been a succession of Porterism which, in recordings or in such excellent sheet music portfolios as the album discussed above, has never filed to give audiences everywhere a kick out of Porter, just as Porter himself demonstrated in "I Get A Kick Out of You." (COLD PORTER SONG ALBUM. New York: Harms, Inc. $1.00.)

NEWS FROM THE PUBLIC LIBRARY

All over the state of Louisiana, parish libraries are devoting the month of March to a campaign to awaken citizens to their duties and responsibilities. You may ask why this is being done. It is because too many people enjoy the rights and protection of citizenship, but fail to pay for them by assuming the necessary duties connected with good citizenship. There are many people in this country who attempt to get something for nothing as far as citizenship is concerned. We enjoy freedom of speech and religion, the right to protection of property and trial by jury, the right to choose our work or profession and to decide where and how we shall live. In return, how do we safeguard these rights? Are you a registered voter? Do you always vote? Have you ever tried to get a traffic ticket fixed or to escape from jury duty? Do you attend community meetings? Are you willing to serve on committees for local betterment. These are the things to ask yourself in connection with citizenship.

In Ouachita parish the response to the citizenship campaign has been good. A number of clubs have arranged for the Ouachita Parish Public Library to borrow films on some phase of citizenship from the Louisiana State Library at Baton Rouge. By the way the films from this collection can be borrowed at any time, not just during citizenship month. These films are 16mm sound films. If you have a projector, the library will be glad to get the film for you. Go by the library and ask to look at the catalog of films owned by the Louisiana state Library. Other clubs have planned programs dealing with the citizenship theme. Last Friday night the Quota Club presented Mrs. Thomas Jett in a review of "Red Masquerade" by Angela Calomiris. This was a startling denouncement of communism in the United States. If you did not hear the review, be sure to read the book.

Members of the library staff have been asked to speak on subjects connected with citizenship. On February 22, Miss Frances Flanders, the librarian made a 15 minute radio broadcast on George Washington, the citizen for the Fort Miro Chapter Daughters of the American Revolution. On the same right, Mrs. Dorothy Romero, assistant librarian of the Ouachita Parish Public Library talked to the Civitan Club about this citizenship campaign. n March 16, Miss Flanders has been asked to review the book "The Road Ahead" by John T. Flynn for the Alturian Book Club. If your club has not planned a program for good citizenship month, it is not too late. Make your plans at once and let your library help you.

A number of new books have been added to the library collection during the past week. One of the most popular writers of fiction is Frank G. Slaughter. Dr. Slaughter combines history, romance and medical lore in a formula that has proven most popular. His new book is called "Fort Everglades." The background of this story is the great Florida swamp and the Indian wars of the early nineteenth century. In this book we meet Roy Coe, army surgeon and amateur botanist; Andy Winter, debonair captain of dragoons and beautiful and disturbing Mary Grant. If this book is as popular as his "In a Dark Garden," it will be in great demand.

Readers of mystery stories will want to read "Solution T-25" by Theodore Du Bois; "Look Back On Murder" by Doris Miles Disney and "Accident By Design" by E. C. R. Lorac. All of these stories are written by masters in the field and should make exciting reading.

"Neither Five Nor Three" by Helen McInnes is probably the most important book that she has written. In suspense it equals her first success "Above Suspicion." This is a book to make us think. It shows just how the Communists have penetrated into some of most important agencies in our government. This is a book that you will not want to miss.

"A Flower for California" be Frank Swinnerton is a problem novel which will appeal especially to women readers. It is the story of a marriage that failed and the reasons why.

A book that will be widely talked about is "From Here to Eternity" by James Jones. Some will like it and others will heartily disapprove. It is a book of fearless realism in depicting men in the armed forces, their thoughts, their conversation, and their emotions. It is not for the squeamish reader.

If you are not using your public library, don't neglect another day to come in to one of the four branches and register. You will find many things to interest and appeal to you.

DELTA AIRLINES OFFERS TRIPS

Summer All-Expense Rates Provided To Those Seeking Outings

For the fifth straight summer, Delta Air Lines is offering all-expense package vacations to Miami Beach and Caribbean resorts with price reductions designed to attract those who vacation on a budget.

Vacations begin April 20 and will continue through November 30. Designed for those who seek luxury on a modest salary, the package vacations take advantage of discounts up to 34 per cent on Deltas low-cost aircoach service, which is available from Chicago, Cincinnati, Jacksonville and Atlanta, or 25 per cent discounts on deluxe DC-6 flights from Chicago and Cincinnati, made possible by summer excursion rates from those cities. The 25 per cent discount also will apply to Delta-TWA flights to Miami from Detroit, Toledo, Columbus and Dayton, Ohio.

Because of reduced summer rates in Florida, the same amusements and luxuries that attract millionaire winter pleasure seekers to Miami will be available at only a fraction of the usual winter costs to those taking Delta's economy vacation, according to Tom Oster, Delta's agency and interline sales manager.

The vacation consists of eight days and seven nights at either the Caribbean, Cromwell, Macfadden-Deauville, Monte Carlo, Raleigh, or Shelborne Hotel. Tour price includes round-trip flight to Miami, limousine service both ways between airport and hotel in Miami Beach, hotel room, breakfasts (in hotel room or on breeze-swept terraces); boat cruise through the Magic Islands and the South Bay area, and sightseeing through greater Miami and Miami Beach.

Cooling breezes from the ocean make Miami Beach both a summer and winter paradise. Average summer temperature is only 81.4; winter average 70.3 degrees. Myriad daytime attractions include colorful Hialeah Park, tropical gardens, monkey jungles, the Everglades, and water shows. Enchanging night clubs offer a wide choice for dining, dancing and romancing.

VOCATION CLINIC BEING PLANNED

Valley School In West Monroe To Show How To Repair Many Machines

H. P. Willis, director of the Ouachita Valley Vocational School, states that his school is offering a two-phase clinic to the appliance owners of Ouachita parish. The first part of each meeting will deal with minor repairs to major appliances such as preventive maintenance on automatic washing machines. This phase of the clinic is sponsored by these companies: Walter Reed Refrigerator Company, Couch Refrigerator Company, Baber's, D and E Furniture Company, United Electric Service Company, Louisville Appliance Company, and Trenton Appliance Company.

At each meeting, one of the companies will have a representative present to disassemble the machine his company handles and point out things that can be done by the owner to avert damage in case of an electric storm, freezing weather, etc.

Mr. Willis states that this is not a selling program. It will be a service clinic at which the Frigidaire, Westinghouse, General Electric, Maytag, and Bendix automatic washing machines will be studied for the purpose of increasing life of the machine.

The second phase of the clinic will be basic appliance repairs. This part of the clinic will be conducted by Stacy C. Thigpen, instructor, who is well qualified and with years of past teaching experience.

Those who enroll will have opportunity to learn how to install cords in electric irons, waffle irons, toasters, desk lamps and floor lamps. Also to repair these and many other appliances.

Tuesday night, March 13, has been set as organization night at 7:30 p.m. Those who attend this meeting will decide on later meetings. The clinic is a 24-hour course. Mr. Willis further states that this school is a public institution operated by the state of Louisiana. The instruction is free to all who attend.

Monroe Garden Club Will Present Garden Specialist At Meeting

The Monroe Garden Club will present William Lanier Hunt in a Garden Lecture at their regular meeting which will be held Monday at 2:30 p.m. at the Virginia Hotel.

Mr. Hunt is perhaps the South's best known gardening specialist. He is a voluminous writer in many publications. He travels constantly studying gardens and plants throughout the states from Maryland to Texas and serves as a consultant on matters of gardening for HOUSE BEAUTIFUL magazine, Cypress Gardens in South Carolina and other organizations and institutions. Born in a plant nursery, he early took to plants. Educated in Woodberry Forest School and the University of North Carolina, he assisted in many of the early projects of gardening organizations in Virginia and practically all the other Southern states. He went to England and studied privately at Kew Gardens and on the Continent in 1927 and keeps up his connections with the Royal Horticultural Society and with many other societies over the world.

Aside from his intense study of plant materials, Mr. Hunt's two chief interests are garden clubs and their work in the South and civic beautification. He recently completed a study of Pine Bluff, Arkansas looking toward the improvement and beautification of that city. He is a frequent speaker for garden club conventions and constantly in demand for individual clubs. Richmond gardeners heard him at the national convention of the National Council last April, and he taught part of the summer judging school in Blacksburg in August. He is a member of the Board of Horticultural Consultants of the Federated State Garden Clubs. Mr. Hunt says he owes much to his early friendship with Virginia gardeners like the late Mrs. Joseph G. Walker and Mrs. Thomas Wheelwright.

The public is cordially invited to attend this interesting lecture for a nominal fee.

For a Glorious Easter . . .
and MUSICAL FOUNDATION
at Your Every Service
INSTALL A
WURLITZER ORGAN
in Your Church, Too! . . .

Two factors combine to create a *full sense of satisfaction* with every religious service. The first, is oral—the spoken part of the Service and sermon. The second, is the *Musical Foundation*—the majesty, solemnity or joyousness which true organ music adds to your spoken word—*the background that lends completeness.* Install a Wurlitzer Organ in your church this Easter. You'll discover that it's *traditional* music in solo, choir or congregational accompaniment, or, as "mood" music, will add greatly to the appreciation of your congregation—draw more people to your church. The Wurlitzer Organs conform to all console arrangements and playing dimensions of the American Guild of Organists. We'd be glad to demonstrate them for you. Let your own organist play them. With no sacrifice in organ tone, and with important savings in space and cost, there is a Wurlitzer Organ Model ideally suited to your church and budget. For a glorious Easter, your *early* order insures installation.

HANDICAPPED AID COUNCIL'S PLAN

Details Of Organization Explained; Program Is Proceeding

The Community Council for the physically handicapped was organized on a permanent year-round basis on September 13, 1950. In adopting a constitution for the future government of this council, the following policies were outlined: To inform the public of the facilities available for handicapped persons. To encourage the handicapped who need rehabilitation to take advantage of those services which include physical restoration, guidance, and training and to become as efficient as possible. To encourage the handicapped to take advantage of all services available. To encourage employer acceptance of men and women with disabilities as able productive workers in jobs for which they are qualified by experience, aptitude and training. To encourage the use of sheltered workshops for those handicapped unable to work in covered employment or other types of aid for those who are unemployable. To encourage job opportunities and continued employment for the community's handicapped workers. To encourage employers, handicapped persons, and other citizens to use the services of those agencies which are participating members of this council. To accelerate and coordinate efforts in carrying out a special program for National Employ the Physically Handicapped Week. To encourage the handicapped to participate in this council by assisting in carrying out all of the foregoing policies.

The council at this time wishes to present to the public the known results of the activities in cooperation with the various organizations that perform training, rehabilitation and employment services to both handicapped civilian and veteran applicants from the organization date through February, 1951. A total 121 have been placed in rehabilitation training which will prepare them for successful employment in their chosen field during this period and a total of 251 have been placed in gainful employment through the combined efforts of the local offices of the vocational rehabilitation service, Veterans Administration, veterans employment service and the Louisiana state employment service, all of which are members of and cooperate with the local Community Council. A good example of one type of service performed for the handicapped is shown in the story of Bill, a handicapped veteran.

Bill first registered for work at the local employment service office on September 23, 1948. He stated at that time that he had received an injury to his right arm and shoulder while in basic training in 1945. As a result of this injury, he suffered severe pain in the shoulder and neck which at times caused severe headaches. Hospital treatments during 1946 and 1947 only gave him temporary relief. As a result of this disability, his work record revealed that of several jobs attempted, from discharge in 1947 to September, 1948, the longest period worked was three days. An appointment was made for Bill to talk to the counselor and as a result of this interview, he was given the general aptitude test battery about a week later. The tests revealed good scores in general intelligence and visual inspection.

Since Bill had only a 10th grade education, he was also advised by counselor of the local employment office to get his high school diploma by taking a general education test. After several counseling interviews, Bill was referred and placed on two jobs, however his physical condition was such that he could not continue in them after a short trial. Bill renewed his application for work on September 14, 1950 and was referred to the counselor for an interview. During this interview Bill furnished evidence to the effect that he had passed the general education tests and had secured his high school diploma.

A report from medical authority showed that he was physically capable of doing light work in stockkeeping and warehouse work. His application was classified accordingly and the placement department of the local employment office developed an opening with a large wholesale firm in this area. Bill was then referred for an interview on November 15 and was hired. A follow-up was made on November 30, 1950 and the employer stated that he was well pleased with Bill. He stated his work was fine.

This is the story of one of many handicapped applicants who have applied for and received a service that proved very beneficial to them.

The local Community Council invites all organizations and individuals in the community to join it in the furtherance of this most important program.

BURRO FOR DINNER

Barstow, Calif.—(AP)—From the evidence, somebody had apparently dined illegally on burro steak. Police reported finding the carcasses of four "wantonly slain" wild burros on the desert near here. A quarter had been cut from one of the younger, and presumably more tender, ones.

A California law provides severe penalties for the capture or killing of the wild burro, which was once threatened with extinction from over-hunting. Officers said someone with a high-powered rifle picked off the animals apparently for the sheer pleasure of killing.

FORCES DONATE BLOOD

Tokyo—(AP)—Soldiers and civilians on occupation duty in Japan are donating whole blood to be flown to injured fighting men on the Korean front. Many persons have donated as much as three pints of blood since the blood bank of the 406th medical general laboratory opened in Tokyo last July 5.

Mobile blood bank teams travel to cities outside Tokyo.

RALPH SQUIRES IN 2 PROGRAMS

Noted Centenary Pianist Will Be Heard In Recitals In Monroe

The local student chapter of Music Educators National Conference, active on the campus of Northeast Louisiana State College, announces the coming of Ralph Squires, outstanding pianist from Centenary College, Shreveport, who will play two recitals in Monroe in the near future.

Both performances will be given in the home of Joe Monroe on Speed Drive, under the sponsorship of the M. E. N. C. Chapter.

The first recital on Saturday evening, March 31, at 8 o'clock, will embrace piano literature of special appeal to more seasoned concert goers. A musicale for students to be played the following day at 3:30 p.m. is to feature compositions of interest to those who are presently devoting themselves to the study of piano.

Mr. Squires is well known to Monroe audiences through several appearances here in recital, and his return engagement is anticipated with unusual interest.

It will be essential for those who desire to attend to secure admission cards in advance from a member of the conference chapter, since the size of the audiences will necessarily be limited.

Members of the organization who are sponsoring the event include: Charles Littleton, Joan Bandy, Jonnie Bankhead, Iane Evans, John Enders, Joe Monroe, Herbert Peterson, Hugh Bradshaw, Jane Wallace and the faculty adviser, Mrs. Florence Z. Allbritton, assistant professor of piano at Northeastern.

CITY TEACHERS HOLD MEETING

Hear Instructive Talk On India By Mrs. Clyde Stuntz

The Monroe City Teachers Association met in the auditorium of the Central Grammar School, on Tuesday.

Miss Eleona Brinsmade, the president, called the meeting to order and turned the meeting over to the program chairman, Miss Marjorie Oliver. Miss Oliver introduced the guest speaker, Mrs. Clyde B. Stuntz, returned missionary from India. Mrs. Stuntz, has been in India for 35 years stated Miss Oliver and she and her husband, Dr. Clyde B. Stuntz are now on leave and are visiting their d ughter, Dr. Margaret Coon of this city.

Mrs. Stuntz told how missionary work was started in India, how the first schools were established and of her work in the schools. Dr. and Mrs. Stuntz are located in a province, Pakistan, recently separated from India.

Mrs. Stuntz stated that the Mohammedans are pupils of the mission school as well as Pakinese. The school is fully accredited and is much advanced from the other schools that might be termed public schools in this country. She stated that there is an inspector who goes around to see that the education of the students is carried on in the correct way and this inspector stated that the mission schools are always far ahead of the other schools.

She gave an insight into the country, its terrain, and the customs and habits of the people. She told of the difficulty in getting place to place at times and stated that the people of Pakistan were most anxious to learn and to live more complete and happy lives. Mrs. Stuntz told of the beauty of the Taj Mahal and the fact that it is the most beautiful building of its kind in the world.

The history of the Mohammedans was told in a very interesting manner, and their eagerness to learn was proven by their attitude and attendance at the mission schools.

The teachers asked questions and Mrs. Stuntz aided the talk by use of the map of India.

A business session followed the talk by Mrs. Stuntz. The minutes and treasurer's report were read and accepted.

Supt. J. M. Boyet talked to the group about the budget of the school.

The next and last meeting of the year will oe May 8.

WATER PURIFIER WORKS

Los Angeles — (AP)—An answer to one of the great hazards of a major disaster—contamination of a city's water supply—may be a portable purifying unit invented by a California Institute of Technology professor.

Dr. Alexander Goetz 12-pound "sanitizer" has been tested by county health officials and proven capable of turning murky water from the Los Angeles river into a clear, drinkable liquid.

The unit sucks up water like a small pump and filters it through powdered earth that renders dangerous bacteria harmless, Doctor Goetz says. He estimates it can be produced for from $30 to $50 a unit and can purify 50 quarts of water an hour at a cost of only a few cents per gallon.

SYPHILIS CALLED HIGH

Alexandria, Egypt — (AP) — Initial reports of a syphilis control project in rural Iraq indicate that 40 per cent of the rural population is infected. A world health organization team is beginning treatment with penicillin in efforts to reduce the number of cases.

SKY "TUNNELS" USED

London—(AP)—Aircraft flying from London to Paris, Brussels and Amsterdam are now operating under a plan for greater safety in the air.

Airways used in the plan are, in effect, sky tunnels ten miles wide within which civil aircraft flying at heights between 3,000 and 11,000 feet are separated from each other at intervals of 1,000 feet. Aircraft in an airway are under the control of the ground organization and their movement is regulated so that no two aircraft can be in the same place at the same height and time.

Trans Atlantic air traffic has been using an airway from the Irish Sea to London for six months and eventually the airways system will cover the British isles.

STUDENTS MAKE GOOD JURORS

New Brunswick, N. J.—(AP)—One morning in 1936 several students in the news reporting class at the State University School of Journalism found themselves moved out of the spectators' seats in Judge George Morrison's district court in New Brunswick, and sworn in as jurors. That was the beginning of a unique learn-by-doing program which Professor Hubert Ede's reporting classes have been carrying on regularly for the past five years.

"The reason I like to have students serve on juries is that they do such a fine job. I don't know that I've ever had any better, more serious jurors than the Rutgers kids," Judge Morrison said.

"There is an age requirement of 21 years of jurors in this state," Judge Morrison explained, "but we hit on the practice of getting both attorneys in a case to waive that limitation, and it's worked out fine."

Here, a corner table that incorporates a lazy-susan bookshelf is seen. The bookshelf revolves with the pressure of a finger. It is an attractive note in decor when combined with modern sectional groupings. The twin sectional divans are typical of the easy styling of modern furniture classics shown at the Los Angeles Furniture Mart.

LA. CONVENTION OF P.-T. A. IS NEAR

Selman Executive Council Discusses Plans In This Connection

Mrs. J. H. Alford, president of Selman Parent-Teacher Association, presided at the regular monthly meeting of the executive board. Plans for the summer-round-up meeting were discussed. It was decided to secure the services of two physicians with the nurses and mothers help in order to complete the work in the forenoon. The date will not be definitely set until later. Due to the state convention dates being April 19, 20 and 21, the board moved to change the date of the April meeting from April 19, to Thursday April 12.

This date is election day—thus the new officers will have the privilege of representing the unit as officers. The nominating committee will give its report at the next regular meeting which will be held Thursday afternoon March 15 at 3:00 p.m. At this time delgates and alternates will be elected for the state convention which is to be held in Shreveport April 19-21.

H. Clyde Cook, Sr., will be guest speaker at the regular meeting, and will use as his subject "The Value of Proper Relationships Between Parents and Teachers." The sixth grade home room mothers will be hostesses on this occasion.

Those present at the executive meeting were: Mrs. J. H. Alford, Mrs. Parker Humble, Mrs. Joseph Petch, Mrs. Chester Roberts, Mrs. Parker Pinholster, Mrs. Virgil Pilgrim, Mrs. Oscar Crawford, and Mrs. G. B. Wilson.

RECREATION HAS MARCH ELECTION

Plans Made For Expanded Work For Community Interest

The Monroe Recreation Board, at its election the past week, named the following active members: W. D. McGee, W. W. Stevens, Miss Geneve Castles, J. S. Harbuck, George Moses, W. C. Royce, F. M. Goldsmith, Francis Barnett, Mrs. Courtney Oliver, Fred Hancock, Ralph Marionneaux, O. N. McNeil and George Weaks. Officers elected for the ensuing year are as follows: A. T. White chairman; T. H. Scott, vice-chairman; Miss Catherine Livaudais, secretary; and Miss Freeda Mickel, treasurer.

The March meeting was held last week at the Rendezvous with W. D. McGee, retiring chairman of the board, as host to members on the board.

Recreation, as an organized department under the city council, has existed in Monroe since 1930—when the yearly budget was aproximately $1500. For the past five years, Jack Hesketh has worked untiringly as the director to continue and promote good clean recreation for the city.

Now, proposed plans call for great changes and expansion if any measure of success can be realized this year. Many more people should have the opportunity to participate in organized recreation. Facilities may soon become available so that this may prove possible.

Plans are already underway for the summer playgrounds which operate during the school vacation months at five of the city schools. This summer program is especially planned for all children who enjoy out-door life; and all boys and girls are expected to participate in the various activities—at the playground of their choice.

This film is one of the best depictions of the ministry and life of Our Lord, with particular emphasis on His Passion, that has been seen in a long time. We are happy to haye the opportunity of presenting this film today, Passion Sunday.

Because of the utter realism protrayed, it is suggested that this film is not appropriate for children below Junior High School age.

A LEG UP FOR ITALIAN

Washington—(AP)—American ships entering the port of Pozzuoli, Italy, should get tender treatment from a one-legged harbor pilot named Aquilino Montagnaro. An American naval officer supplied the pilot with a new lightweight artificial limb, the one material thing he needed and wanted most, but could not obtain.

Capt. Parke H. Brady of the fleet oiler Taluga in August, 1949 noticed that the pilot had trouble climbing the ship's ladders. Montagnaro was wearing a 24-pound jointless leg of wood and iron.

Last year when Brady was in Rome for the Holy Year, he obtained a plaster pattern of Montagnaro's leg. Then he had a local firm build a 6-pound leg of duraluminum with movable joints. An Italian admiral returning home from a mission here delivered the leg to Montagnaro. Authorities of the port of Pozzuoli made a ceremony out of the presentation.

MASTER SINGER PROGRAM IS SET

Noted Male Quartet Will Appear At Louisiana College March 16

Pineville, March 10.—(Special)—The Master Singers, one of the outstanding male quartets of the day, will appear at Louisiana College March 16, 9:30 a.m., presenting a program of famous music from their extensive repertoire. This is an unusual opportunity for the public to hear these concert celebrities, and is at the same time one of the Louisiana College Lyceum numbers presented annually.

Walter Hardwick, a former member of the Chicago Civic Light Opera Company and the Old Heidelberg Octet, is one of the Middle West's leading basso-profundos. He has directed the destinies of the Master Singers for the past eight years. In addition he has made a name for himself in concert, radio, and on the stage. In fact, each member is a highly trained and experienced musician. As an ensemble they have attained an enviable artisitic ideal.

They have acquired the musical inflections which are necessary to interpret choral masterpieces so that the listener gets the full import of their messages.

Associated with Walter Hardwick in this company are such top-flight singers and artists as David Johnson, first tenor, popular oratorio, concert and opera soloist, who has sung on many radio programs over leading networks; William Conroy, tenor, who sang for two years with the St. Louis Municipal Opera Company and is frequently heard over the Chicago Theatre of the Air; and Paul Durham, an unusually fine baritone soloist.

Betsy Reed Conroy, accompanist is one of Chicago's fine pianists. She won three scholarships with the noted teacher, Edward Collins, and has toured in recital with some of Chicago's leading singers.

WHERE LEFT IS RIGHT

Lake Success—(AP)—Ninety-three countries in the world favor the U. S. way of driving—the right side of the road—and only 34 drive like the English, on the left side, a U. N. survey showed. Left politically, Russians drive on the right side of the road.

Outside of Britain and Ireland, the only left-side driving is listed for Europe as in Sweden, Iceland, the Channel Islands, and the Isle of Man. The latter pair are under British control. But on Gibraltar and the islands of Malta and Gozo, both under British control, right-side driving is the law.

British-controlled areas account for the ten in the western hemisphere where there is left-side driving. These include Bermuda, the Bahamas, British Honduras, Trinidad, the Leeward and Windward Islands, and Jamaica.

Sarajevo, where the incident that triggered World War I took place, is the capital of Bosnia province in Yugoslavia. The size and geography of Bosnia is about the same as that of West Virginia.

This new sectional grouping including single and two-place seating units and corner table is featured by Brown-Saltman for Spring. The seating pieces have exposed maple frames and thick, inner-spring seat cushions and bolsters. Woolen tweed upholstery fabric. The corner table has a deep storage compartment with sliding tambour roll top. End and coffee tables complete this group—a John Keal design.

Mr. Brown is a man of many activities. As owner and operator of Pinehurst Farms in Orange, Tex. (his home) and of Red Top Ranch in West Texas, he has made many successful experiments in the field of cattle breeding and soil and pasture improvement. His interest along this line of research has been actuated by a sincere desire, to help the Texas farmer and rancher improve his herds and farms. THE STORY OF A CORRUGATED CONTAINER

(1) In the manufacturing of a corrugated container, liner-board first passes through the single-facer which attaches the inside liner of the sheet to the corrugated member of the box. From here the liner travels over a bridge, then through a double-backer where the outside sheet is put on.

(2) After the sheets start through the double-backer they go over four sections of hot plates. These hot plates remove the moisture from the sheets, a process which makes the sheets more rigid.

From here the sheets go through the scoring machine where they are properly scored. From the scoring machine they go through the cut-off knives where they are cut to the proper lengths.

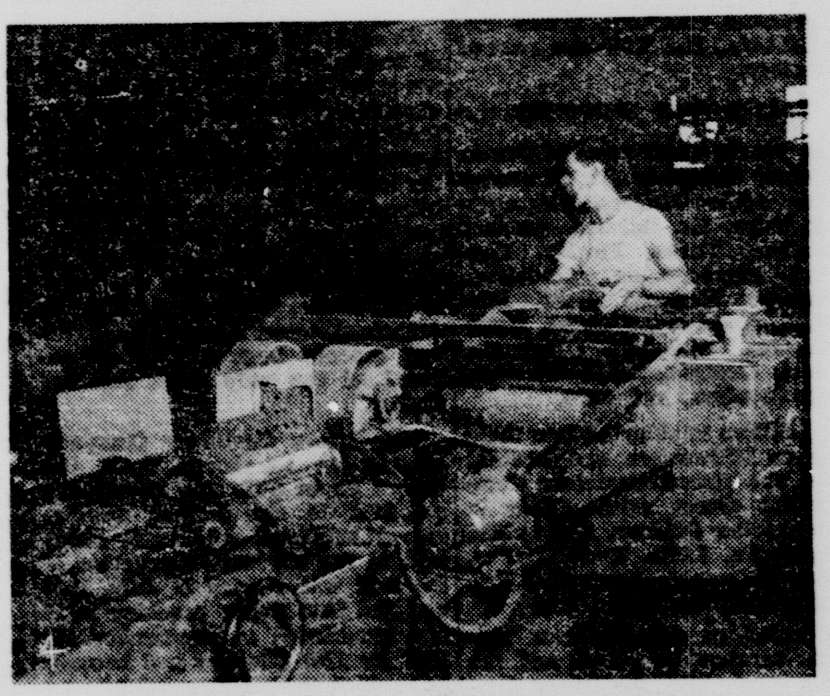

The sheets are removed from the cut-off knives and loaded on skids.

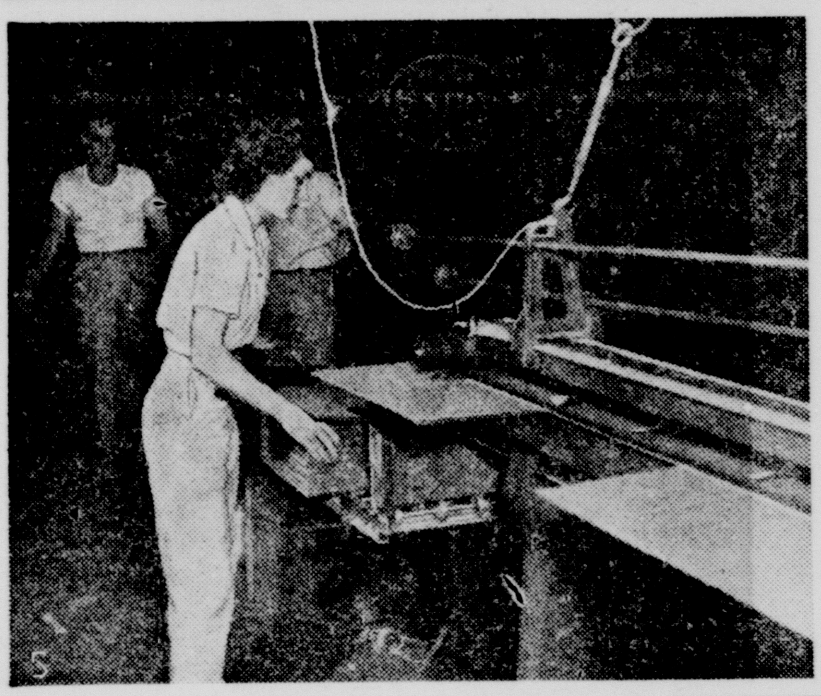

(3) The sheets are left on the skids to cool from four to six hours. They are then started through the printing press where they are creased, slotted and printed according to the various specifications.

(4) From the printing press to the folder taper—the machine is set up to the size of the sheet where the machine in turn automatically folds and tapes them. This is the first step which changes the sheet into a corrugated container.

(5) An inspection is now made of the taped container. This inspection ascertains if the tape has been cut off to the proper length. The bad containers, or those which do not pass inspection, are discarded. The containers are counted for bundling purposes and are pushed down the conveyors for tying by the bundlers.

The bundlers tie and prepare the containers for shipment.

(6) After the corrugated containers have been bundled, inspected and counted, they are put on conveyors and pushed into boxcars where car loaders properly load the cartons for shipment to the customers.

This completes the process of boxes from when the wood was cut from selected timber to a finished corrugated carton.

The Brownie emblem now identifies an organization which is fully conscious of its responsibilities to customers who must depend upon the reliability of their container source for the continued operation of their own plants. The Brownie stands for consistent quality and dependability in corrugated containers just as it has in flexible packaging.

The Brown Container Story

The Brown Container Company, which is heavily engaged in the manufacturing of corrugated containers for the United States government in its present emergency, has a history so young that its great progress in promoting industrial endeavor in the Northeast Louisiana area is in many ways astounding.

The Brown Container Company has been in operation for about two (2) years. Throughout this brochure you are seeing its process of corrugated containers from tree to truck, its work-life and its recreational life. But in addition to the pictures there is a story which in many ways joins the efforts of the Brown Container Company with its companion company, Brown Paper Industries, Inc., and its parental company, Brown Paper Mill Co., Inc. This is a part of that story.

SALES AND SHIPPING

The yearly gross sales of Brown Container Company are in excess of ten million dollars. The company ships its finished product throughout Texas, Florida, Kentucky, Pennsylvania, Louisiana, Tennessee, Missouri, Iowa, Mississippi, Arkansas, Kansas, Massachusettes, Alabama, Oklahoma, Indiana, Georgia, South Carolina, North Carolina, and Ohio.

In addition to shipping into these Southern Midwestern and Eastern states, the Brown Container Company has direct sales offices in Chicago, New Orleans, Alexandria, Indianapolis, Little Rock, Dallas, Houston, Memphis, Louisville, Ky., Tampa, Fla., Harlingen, Tex.

In order to expedite raw materials between its plants and the Brown Paper Mill, the Brown Container Company has its own freight cars which haul raw materials necessary to manufacture its products. Increase in volume in the past year has made the expansion of the company's buildings necessary. Beside the freight cars, the company operates seven trucks, delivering daily into Memphis, Dallas, Houston, Little Rock, New Orleans, and Jackson, Miss., with thirteen salesmen continually on the road.

PRODUCTION

The Brown Container Company, as a manufacturer of corrugated containers, has earned instant recognition as a new source of corrugated containers of the highest quality. Much of this success is due the company's extremely large resources including its own timber land. Throughout this picture-story of the Brown Container Company's growth, there appears a delightful little creature known as "Brownie." Brownie is a copyrighted trade mark which has identified the company since its beginning and is synonymous with quality and dependability. He appears on all Brown Container products and, with the company's extensive shipping, is one of the nation's most widely-traveled figures.

HISTORY

In order to understand the work of the Brown Container Company, we must look briefly into the beginning of the Brown Paper Industries and Brown Paper Mill. Brown Paper Industries is one of the leaders in the kraft paper container field. Since its conception it has developed and produced newer forms of paper packaging to carry American products to dealers' shelves and ultimately into the American home. Corrugated boxes and grocery bags are both composed of the pulp from selected timber.

The Brown Container Company obtains its linerboard from the Brown Paper Mill. The Brown Paper Mill is the largest family-owned sulphate, pulp, and paper mill in the world. Construction of the mill was started in July, 1923 and the first paper machine went into production on September 26, 1924. By 1927 progress had become so rapid that another machine was installed and the size of the mill doubled.

Then, in 1929 two more machines were placed in the mill, again doubling the capacity of the mill, whose production today is in excess of five hundred and fifty tons of paper and linerboard per day. This linerboard, which is of course, the Brown Paper Mill's chief product, is used in the manufacturing of shipping containers. The mill was the pioneer in making liner board from sulphate pulp on Fourdrinier machines, which revolutionized the container industry in the South, producing a high grade kraft board in much greater quantities than had hitherto been thought possible.

The balance of the Brown Paper Mill products, bag paper and wrapping paper, is sold throughout the United States.

The history of the Brown Container Company, as was mentioned above, is extremely young. The corporation was formed in the early months of 1948 and the plant and facilities rushed to completion so that in December of that same year, production was started and the name of Brown Container Company and the Twin Cities began to spread throughout the nation in the field of packaging.

PAYROLL AND PLANT

When the Brown Container Company commenced production in 1948, its total number of employes was 78. By the end of 1949 this number had risen to about 175. Today another remarkable figure-increase brings the total number of employes to 263, with some 700 dependents.

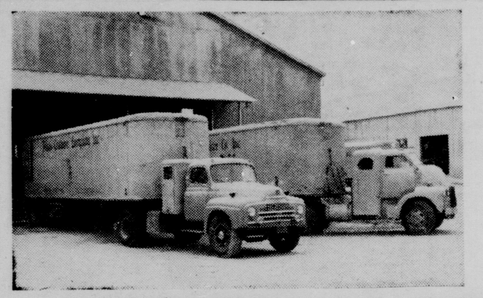

The yearly payroll is in excess of one million dollars.

The plant itself has a building 200 ft. by 500 ft., with a concrete storage ramp for linerboard, which permits the maintaining of a raw material inventory of some 2,000 tons.

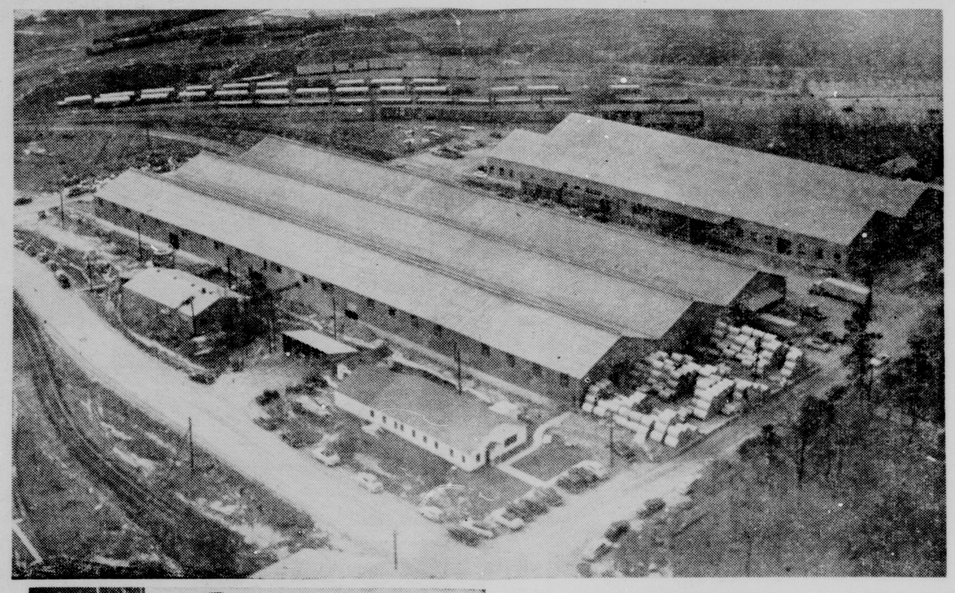

Within these figures, the boiler room occupies a space 40 feet by 80 feet and the office (before expansion currently under construction), 40 feet by 80 feet, or a total of 106,400 square feet. The cost of building and machinery is well in excess of one million dollars.

As the pictures throughout this brochure show, employes enjoy a full-rounded life at the company. In addition, group hospitalization and an insurance plan are in effect, and the company shares the cost.

Certainly the Brown Container Company has helped promote the welfare of the entire community. From this we can readily understand how the distribution of large sums of money in taxes, insurance materials, supplies, and wages has been conducive to better business which in turn has promoted better living.

THE STORY TOLD BY PICTURES:

The aerial photograph of the Brown Container Company buildings serves to demonstrate the enormity of the company's production. Upper left is a part of the company's fleet of vans which operates over a radius of 350 miles from the Twin Cities. They deliver containers daily to various customers, covering areas within Louisiana, Mississippi, Tennessee, Arkansas, Southern Missouri, Oklahoma and Texas. Upper right is a picture of the two four-passenger Beechcraft Bonanzas and the Lockheed Lodestar, which the Brown Container Company uses to fly anywhere in any type of weather. With facilities for ten passengers, the Lockheed and other planes cover the United States for sales purposes in the minimum of time. Below, left, is a meeting of Russell Kynoch, general sales manager of the company, Jim Davidson, sales service coordinator, and Abe Lewis, plant superintendent, talking over some of the daily problems which arise between production and sales, in order to get the maximum production and best in quality fro mthe plant during this critical national period.

HAVE I! JUST WAIT.

Haircut 1.50
Shave 1.00
Shampoo 1.00

OF COURSE, THIS HAIR PIECE ISN'T COMPLETE. IT WILL TAKE A LITTLE BLENDING AND FITTING.

3-11-51

I WANT TO TAKE THIS PUTTY MATERIAL AND MAKE A CAST SO I CAN MAKE A PAD TO FIT THAT INDENTATION.

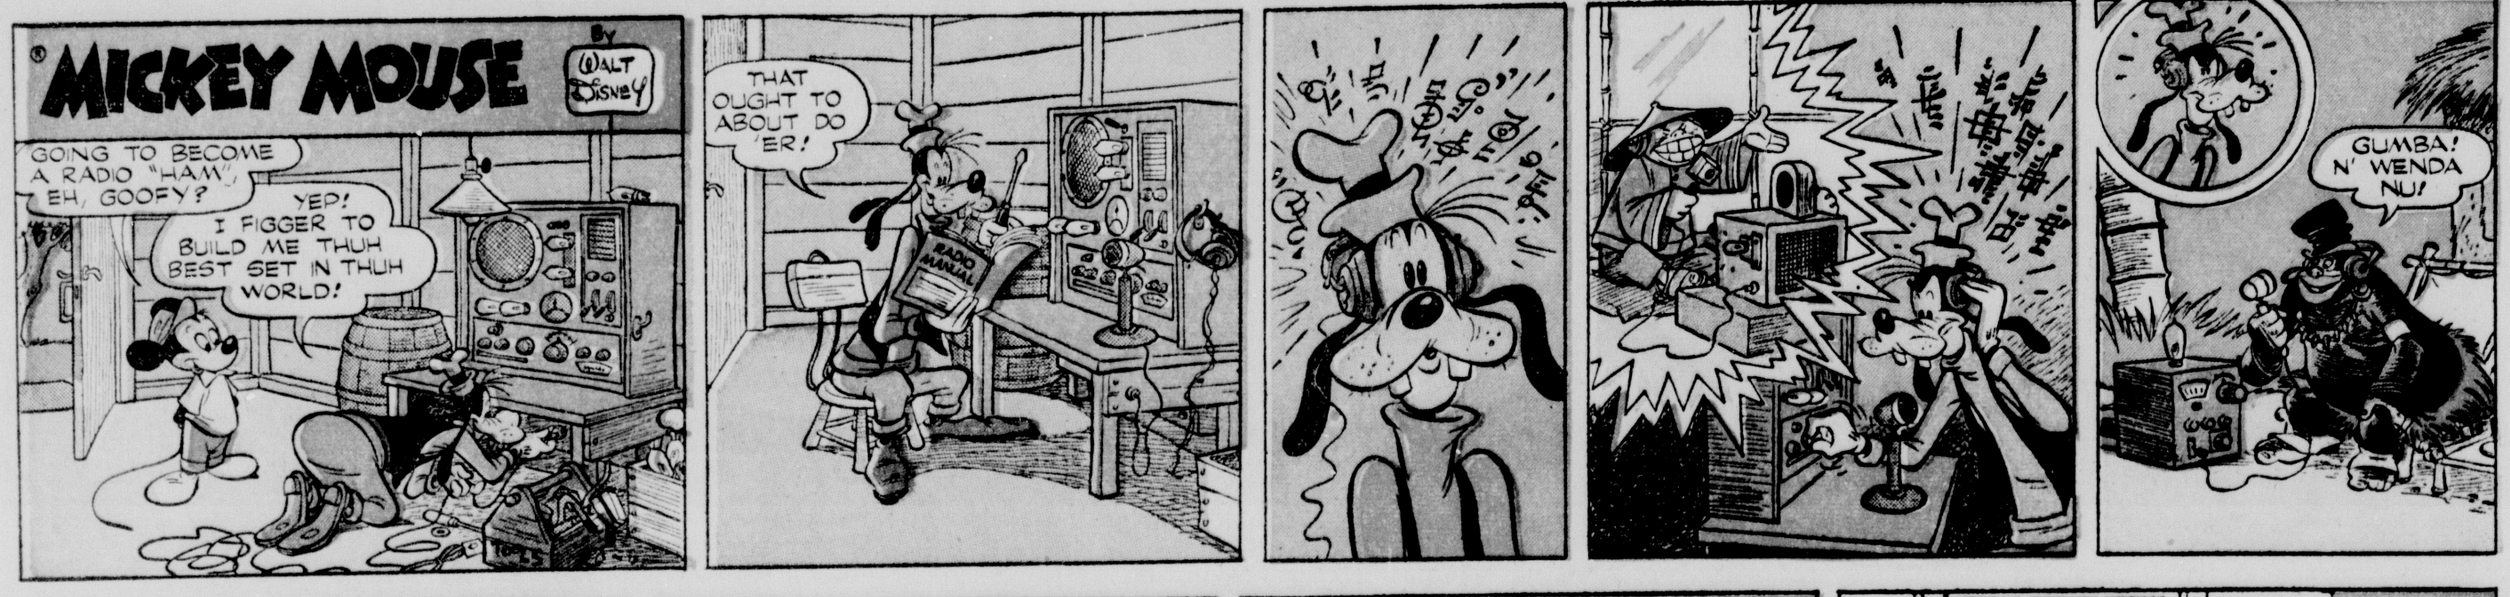

BUT WHEN I GET THROUGH, EMPTY, DARLING, YOU'LL LOOK LIKE A **NEW** MAN. RIGHT?

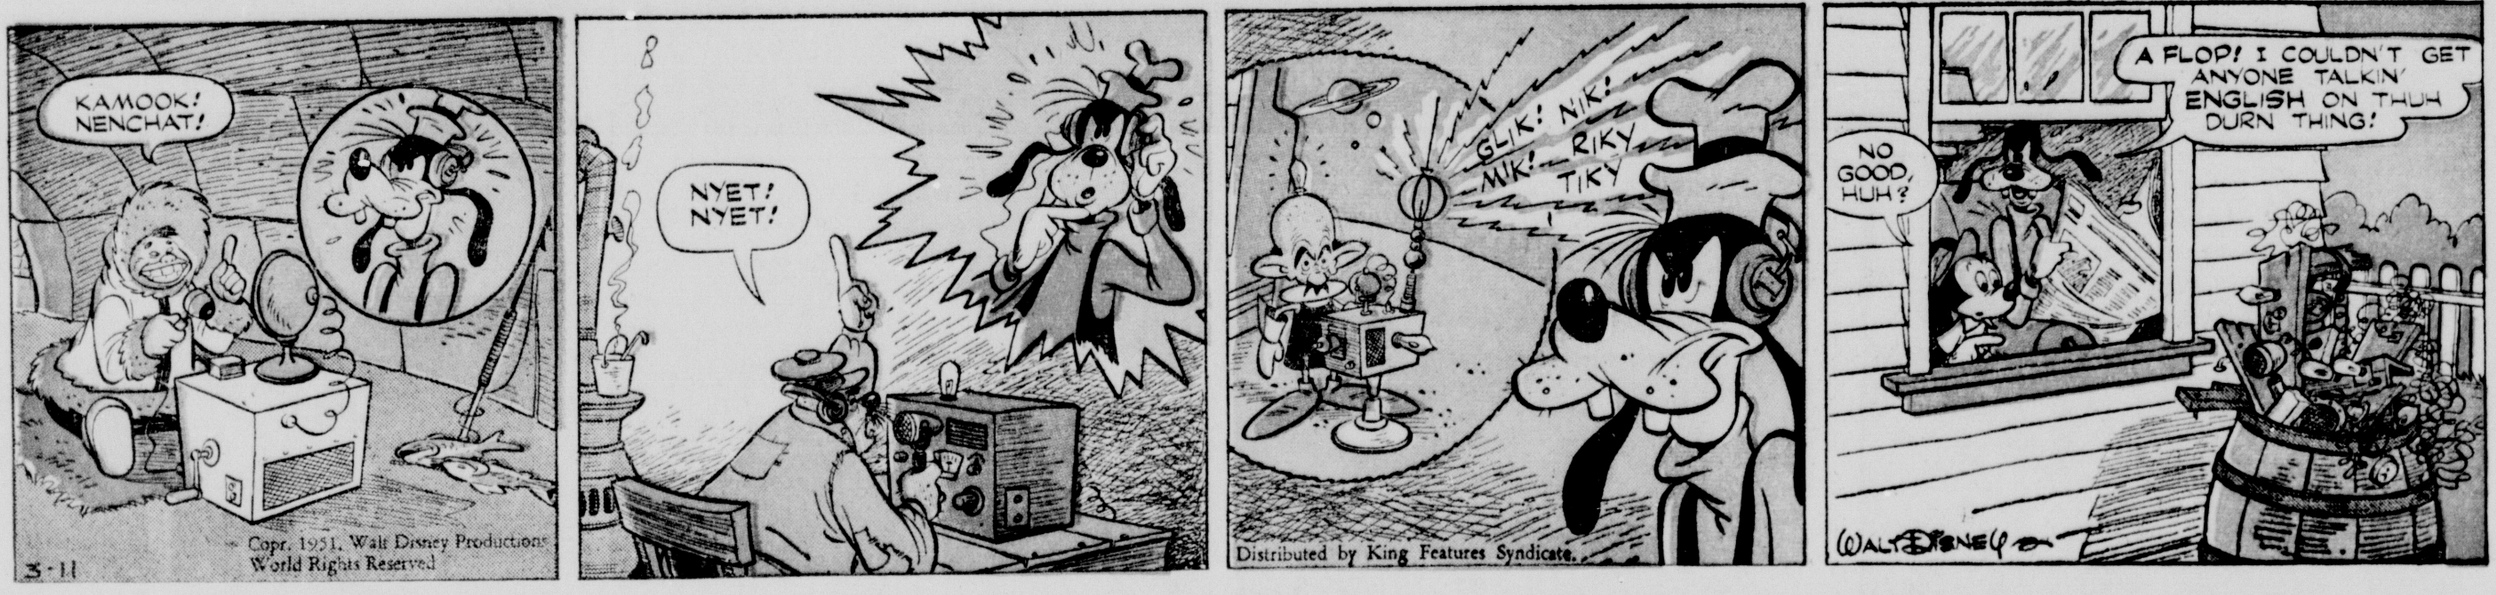

AS A MATTER A' FACT, YES.

I'VE ALWAYS SAID THAT ALL SLUG NEEDED WAS A JOB BIG ENOUGH AND TOUGH ENOUGH TO FULLY TAX HIS ABILITY AND HIS INGENUITY!

WELL, I STILL DON'T SEE WHY HE HAS TO TAX IT IN OUR LIVING ROOM!

WE OUGHT TO GET HIM UNDER CONTRACT. HE MIGHT BE ANOTHER MICHELANGELO!

BUT I DON'T SEE HOW SLUG KNOWS THAT THERE'S A STATUE IN THERE.

YOU HAVE TO LOOK AT IT THROUGH THE EYES OF AN ARTIST!

HEY-! WAIT UNTIL I GET THESE SHEETS OVER THIS FURNITURE

SLUG GOES AT IT LIKE HE'D WORKED ON THE ROCK PILE BEFORE.

IT'S ALL RIGHT TO TAKE OFF YOUR GLASSES, ARNOLD, BUT YOU KEEP ON YOUR UNDERWEAR!

MAYBE WE COULD GET SLUG TO CARVE US OUT A LITTLE STONE NEST THAT WOULDN'T BLOW DOWN WITH THE FIRST STORM!

YEH! BUT WHAT ABOUT MY ARTHRITIS?

COME ON UP HERE, SAMPSON! HE WON'T BE OVER TO THIS CORNER FOR A WEEK!

WELL! DON'T JUST STAND THERE! SOMEBODY GET THE DUSTPAN!

LOOKIE, SAMPSON! WE'VE GOT ENOUGH SLINGSHOT PEBBLES FOR ALL SUMMER!

AT FIRST ZARA WAS STARTLED, BUT SOON SHE SMILED IN RECOGNITION. "YOU'VE COME FOR ME?" TARZAN ANSWERED QUIETLY, "YES, YOU ARE MY PRISONER."

"WONDERFUL!" REPLIED THE PRINCESS. "YOU MISUNDERSTAND," SAID THE APE-MAN. "YOU ARE TO GUIDE US TO SAFETY!

ZARA'S TEMPER RAGED INSIDE AT BEING SO CASUALLY SCORNED, BUT, SHE SPOKE CALMLY. "VERY WELL -- SEE IF ANYONE COMES!"

WARILY, THE TWO MEN APPROACHED THE DOOR. THEN ZARA LAUGHED, AS WITH GREAT SUDDENNESS THE FLOOR COLLAPSED BENEATH THEIR FEET!
